What are Large Learning Models? (LLMs)

Large Language Models are like super-smart computers that try to understand and talk like humans.

Super-Smart Computer Robots: Think of them as a computer program that's really good at using words, reading stories, and even writing like a person does.

Built Like a Brain: Inside, they are built using something called neural networks. This is a fancy way of saying they're designed like a human brain, using connections called "artificial neurons."

Learning from Everything: They learn by reading tons of stuff like books, websites, and even what people are saying online. The more they read, the smarter they get.

Practice Makes Perfect: Just like you might practice a sport to get better, these computer programs keep learning and practicing with more and more information. They keep getting better at understanding and using words the more they practice.

What is Generative AI?

Generative AI refers to a type of artificial intelligence that has the ability to **generate** new data that is similar to the data it was trained on.

It can create original content, such as images, text, audio, or even videos, without direct human input.

Generative AI uses advanced algorithms, typically based on deep learning models to understand patterns and relationships in the training data.

During the training process, the model learns to generate new data that resembles the examples it has seen. For example, if it was trained on a dataset of cat images, it could produce new images of cats that look similar to real cats.

One of the fascinating aspects of generative AI is its ability to create content that didn't exist before. It can be used in various creative applications, like generating artwork, music, or even writing stories.

Chat GPT is both an LLM and generative AI

Chat GPT falls under the category of both a large learning model and generative AI, combining its extensive language understanding with the ability to generate text.

Large Learning Model: GPT is a large learning model . GPT-3, for instance, has 175 billion parameters, making it one of the largest language models in existence. This vast number of parameters allows GPT to process and understand language with remarkable complexity and accuracy.

Generative AI: GPT is also an example of generative AI because it can generate new and original text based on the patterns it learned during training. When you interact with GPT and ask it questions or provide prompts, it generates responses that are not pre-programmed but rather generated on the spot by the model.

Chat GPT launched in November 2022

When it launched in November 2022, Chat GPT3.5 became the first Generative AI tool that

1. Was very easy for consumers to interact with. It has a simple interface and it's easy to ask and receive information
2. Chat GPT 3.5 was trained on 175 billion parameters making it the most sophisticated generative ai tool

Consumers had never experienced an AI tool that was humanlike in the quality of its answers

Example – Very useful things you can ask Chat GPT to do

EV please summarise the main points in the book how to win friends and influence people

"How to Win Friends and Influence People" by Dale Carnegie is a timeless self-help classic that provides practical advice on improving social interactions, building relationships, and enhancing communication skills. Here are the main points from the book:

1. Fundamental Techniques in Handling People:

- Avoid criticism and condemnation, and instead offer genuine appreciation and praise.
- Give people a sense of importance and let them feel valued.

2. Six Ways to Make People Like You:

- Show genuine interest in others and actively listen to them.
- Smile and create a pleasant atmosphere.
- Remember and use people's names.
- Be a good listener and encourage others to talk about themselves.
- Talk in terms of the other person's interests.
- Make the other person feel important and respected.

Ask chat GPT to

Provide a travel itinerary for an upcoming trip

eg. I am visiting Dublin on a 4-day trip spending 3 nights in a city centre hotel. Can you provide me with an itinerary recommending the best places to visit and eat - I have an interest in food, music and history

Example – Very useful things you can ask Chat GPT to do

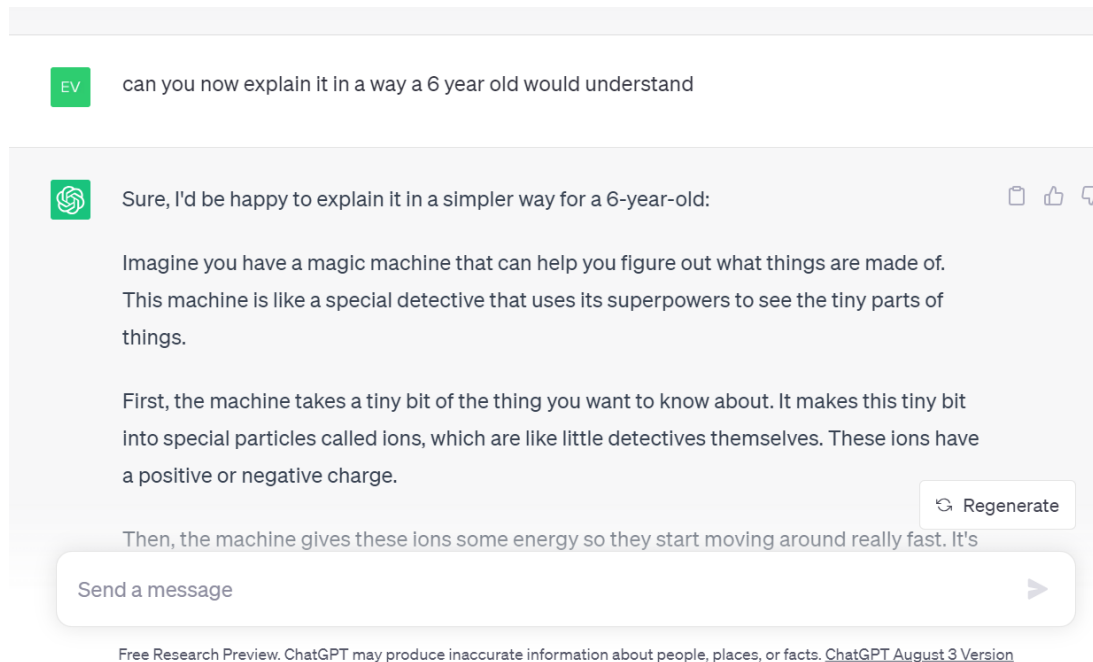

Ask chat GPT to

Provide meal and recipe ideas based on ingredients that you have

Eg. I have the following ingredients. Can you suggest some meals I can easily make in 20 minutes. I have eggs, ham, cheese, pasta, tuna, tomato, onion, milk in my fridge.

You can then ask it to provide a detailed recipe for any of the suggestions

Example – Very useful things you can ask Chat GPT to do

Ask chat GPT to

Explain very complicated concepts that you don't understand

Eg. Explain to me how a mass spectrometer works

Then follow up with – now explain it in a way that a 10 year old would understand

Example – Very useful things you can ask Chat GPT to do

➤ Default (GPT-3.5)

EV

It is my dad's birthday and I am looking for a unique gift ideas. He loves tech gadgets, he plays golf and likes gardening. Can you suggest 40 unique gift ideas that typically cost under €150

Of course! Here are 40 unique gift ideas for your dad's birthday that align with his interests in tech gadgets, golf, and gardening, all typically costing under €150:

Tech Gadgets:

1. **Smartphone Camera Lens Kit:** Enhance his photography skills with attachable lenses for his smartphone camera.
2. **Wireless Charging Station:** A sleek charger for his gadgets that supports wireless charging.
3. **Bluetooth Speaker Planter:** A combination of a Bluetooth speaker and a planter for his favorite plants.

Ask chat GPT to

Provide unique gift ideas

Eg. It is my dad's birthday and I am looking for a unique gift ideas. He loves tech gadgets, He plays golf and likes gardening. Can you suggest 40 unique gift ideas that typically cost under €150

Example – Very useful things you can ask Chat GPT to do

Certainly! A mathematics degree opens the door to a wide range of exciting career opportunities across various industries. Here are 10 great jobs that your son could consider as a maths graduate:

1. **Data Analyst/Scientist:** Analyzing and interpreting large datasets to provide valuable insights and help inform business decisions.
2. **Actuary:** Assessing and managing financial risks by using mathematical and statistical techniques, often in insurance and pension sectors.
3. **Quantitative Analyst (Quant):** Applying mathematical models and statistical techniques to develop strategies for trading, risk management, and investment analysis in finance.
4. **Operations Research Analyst:** Solving complex problems related to logistics, supply chain, and decision-making using mathematical optimization techniques.
5. **Statistical Analyst:** Collecting, analyzing, and interpreting data to guide research, policy-making, and business strategies.
6. **Cryptographer:** Designing and analyzing cryptographic algorithms to ensure data security and privacy in areas like cybersecurity.

Ask chat GPT to

Provide a list of jobs that your child who is going to college could consider after they graduate

Eg. My son is in his final year of a maths degree. He would like to get a job with a big company but doesn't know what type of job he can get as a maths graduate. Can you suggest 20 great jobs for maths graduates? Can you also explain 3 pros and cons of each job, 5 things someone would do a typical day and the usual starting salary for a graduate in Ireland

Then:

Can you now rank / prioritise these? He wants a job where what he does is measurable, where he can work in any country and pays well after 5 years. Include the typical salary after 5 years

Ways people are using Chat GPT

People are using Chat GPT to ...

- Generate a meal plan
- Generate a best man wedding speech
- List and explain the pros and cons of a big decision you have to make
- Generate song lyrics
- Learn new skills
- Learn a language
- Get birthday gift suggestions eg. for an uncle or a 5 year old girl
- Prepare for a trip
- Generate recipes
- Write a job application for a specific type of job
- Understand what interview questions you could be asked for a specific job
- Learn how to answer specific interview questions for a job
- Summarise books
- Write a story or the outline of a story-based elements that you specify

Ways businesses and marketers are using Chat GPT

Businesses are using Chat GPT to

- Write blog posts
- Review / summarise and improve website text
- Generate call to action ideas
- Generate special offer ideas
- Create advertising headlines and slogans
- Generate legal-style letters
- Write emails for customers and prospects promoting your product or service
- Generate Google ad copy
- Generate video scripts
- Analyse competitors reviews
- Analyse your own reviews to see what your perceived strengths and weaknesses are

There are now two versions of Chat GPT

Chat GPT 3.5 which is free

Chat GPT 4 (Called Pro) which costs €20 / month

Chat GPT 4 gives you ...

- Faster results
- The data it was trained on is much larger so results are more comprehensive
- You can use Chat GPT apps and advanced features to make it even more useful.

And there are other Generative AI tools that have emerged in the market

For generating written content – based on LLMs there are 2 other big options

1. Bing

Bing's search engine has integrated Chat GPT into the search results

2. Google Bard

Google has launched their alternative to Chat GPT called Google Bard and is starting to incorporate it into search results.

What is prompt engineering?

This is a phrase you will hear when it comes to how you ask Chat GPT or any of these chat bots for information

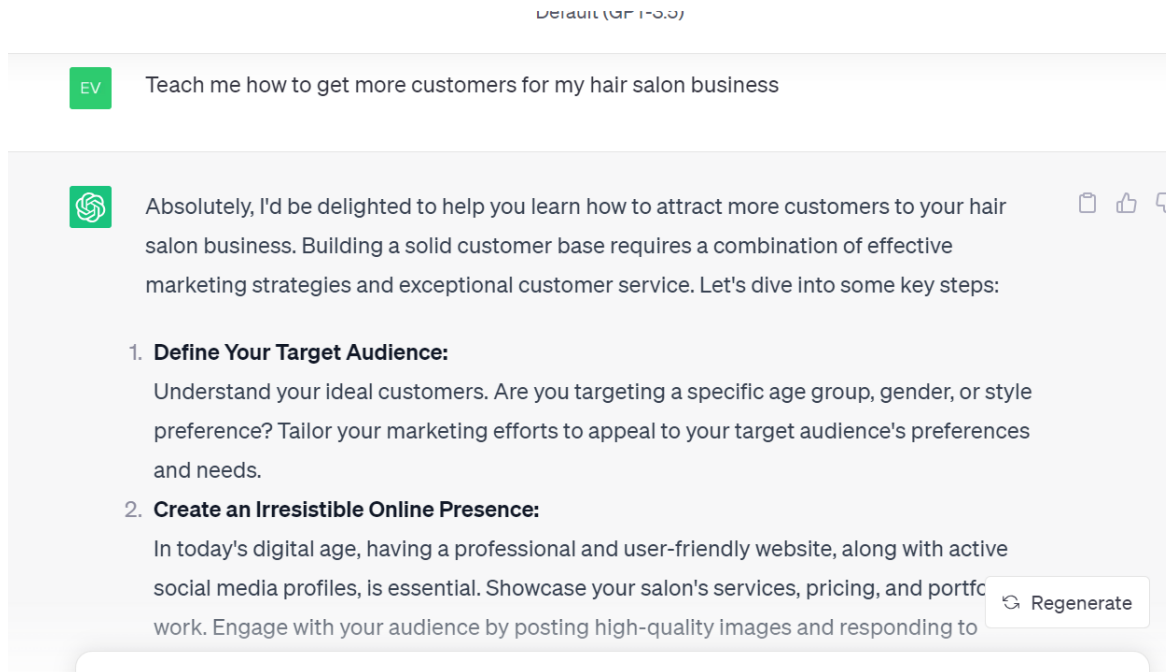

When you ask Chat GPT something it is a prompt

If your prompts are poor you won't get as much out of Chat GPT

A prompt can be a question, a phrase, or several paragraphs. The more specific the prompt is, the better the response.

Writing the perfect prompt — prompt engineering — is critical to ensure the Chat GPT response is not only factually correct but crafted exactly as you intended to best deliver information to a specific target audience.

So, what are the main types of prompts you should be aware of

Teach Me:

Ask ChatGPT to provide an explanation or teach you about a specific topic.

Example: "Teach me how to get more customers for my hair salon business."

So, what are the main types of prompts you should be aware of

EV

Can you give me a step by step guide to building an irresistible online presence for my hair salon business?

Certainly! Building an irresistible online presence for your hair salon business is crucial in today's digital age. Follow this step-by-step guide to create a compelling and engaging online presence that attracts potential customers and keeps them coming back for more.

Step 1: Define Your Brand Identity

1. **Identify Your Unique Selling Proposition (USP):** Determine what sets your salon apart from competitors. Is it your specialty services, personalized consultations, or trendy styles?
2. **Create a Brand Persona:** Develop a consistent brand voice and personality that resonates with your target audience. Decide whether your brand is sophisticated, friendly, edgy, ...

Regenerate

Send a message

After getting a reply to “teach me” ...

You could then Iterate / delve deeper

Delve deeper into one of the points Chat GPT has given you. For example

Can you give me a step-by-step guide to building an irresistible online presence for my hair salon business?

Then ask it about other points and you will get more detail.

So, what are the main types of prompts you should be aware of

Act as

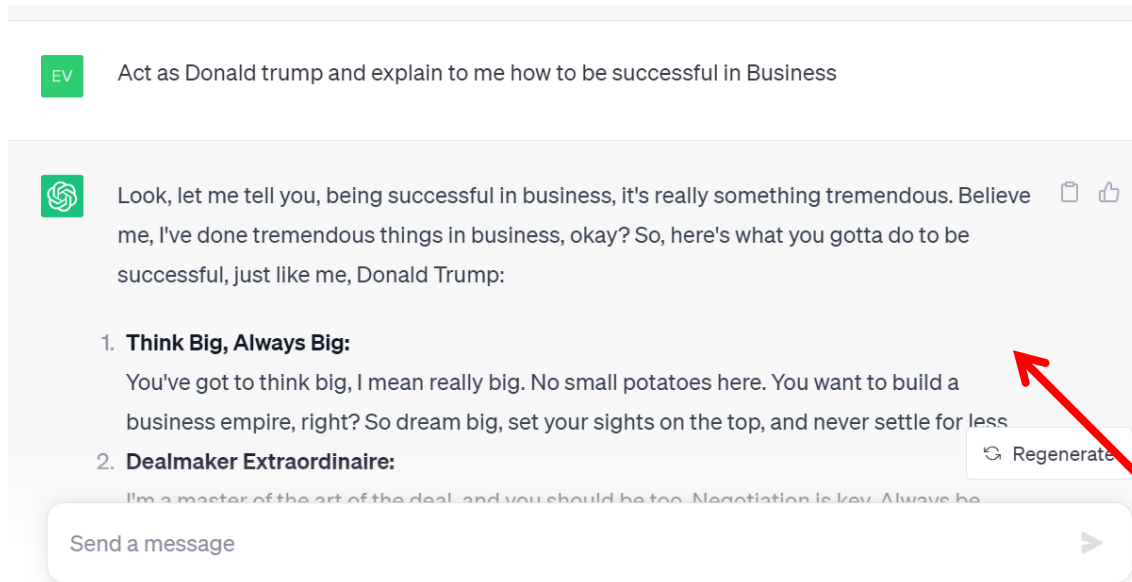

In this type of prompt, you instruct ChatGPT to respond as if it were a specific person, character, or entity.

Example: “Act as a recruitment expert and explain 10 pitfalls to avoid when hiring a social media manager”

The content will be written in a more expert voice and will have more detailed expertise

Example: Act as Donald trump and explain to me how to be successful in business “

The content will be in Donald Trump’s tone and language

So, what are the main types of prompts you should be aware of

Summarize:

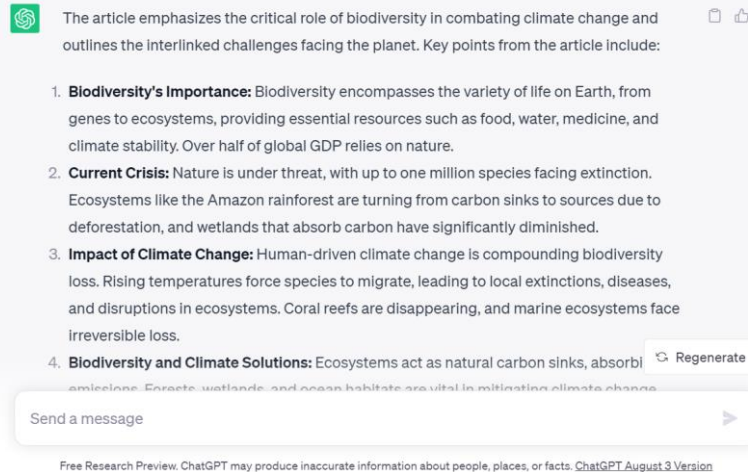

Prompt ChatGPT to condense a larger piece of content into a shorter, concise summary.

Example: "Summarize the main ideas of the article 'Climate Change and its Effects on Biodiversity'." – then paste in the content of the article (Note – there is a limit of approx 500 words / 4,000 characters)

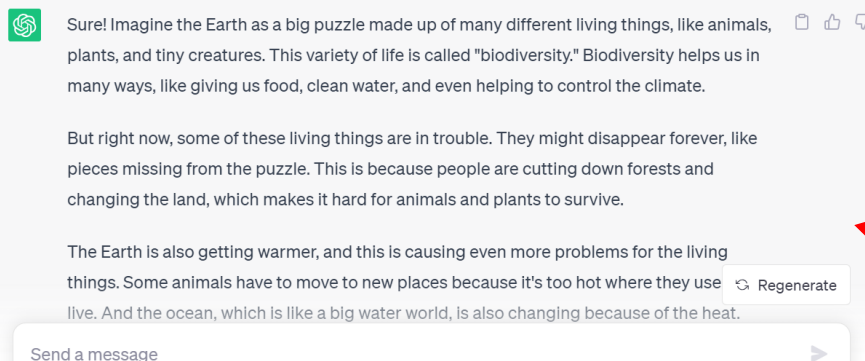

<https://www.un.org/en/climatechange/science/climate-issues/biodiversity>

After this you could also try:

1. Can you summarise this more?
2. Can you summarise and explain this to a 10 year old?

EV can you explain this summary to a 10 year old?

So, what are the main types of prompts you should be aware of

Here are some example of blog posts I have written. I am adding these so you can understand my writing style: Example blog posts I have written – for write like me

Did you know that Instagram has been quietly removing some accounts' Posts and Reels from appearing in hashtag results or in the Explore Page. Basically, it stops the content being recommended to non-followers if it thinks that you have not followed their guidelines. An example of not following guidelines would be using popular but not relevant hashtags. The process was called 'shadow banning' – you wouldn't be told by Instagram but you might notice less reach or

Free Research Preview. ChatGPT may produce inaccurate information about people, places, or facts. ChatGPT August 3 Version

Based on the examples you've provided, your writing style is informative, concise, and straightforward. You provide practical tips and advice in a step-by-step manner. Here's a summary of your writing style based on the examples:

1. **Informative and Actionable:** You provide valuable information that readers can use to enhance their social media presence and marketing strategies.
2. **Step-by-Step Guidance:** Your blog posts often include clear and easy-to-follow steps or instructions, making it simple for readers to implement your suggestions.
3. **Highlighting New Features:** You alert readers to new features or tools on platforms like Instagram, Facebook, and LinkedIn that can benefit their marketing efforts.
4. **Use of Examples:** You illustrate your points with examples, such as mentioning specific tools or apps, which helps readers understand how to apply the information.
5. **Benefits Emphasis:** You emphasize the benefits of the tools or strategies you discuss, explaining how they can save time, enhance content quality, or improve engagement.

...

You can also set Custom instructions that will shape the responses

Click on your name bottom left
Then click custom instructions

You can now give chat GPT some information about yourself and what you want it to factor in when providing answers. This will help having to retype the same context and instructions over and over again

Examples of custom instructions

What would you like ChatGPT to know about you to provide better responses?

I am a digital marketing trainer who delivers Digital marketing training courses to small business owners. Most of the people who attend my courses already have a basic understanding of Digital marketing and want to understand lesser known techniques that will help them grow their sales.

How would you like ChatGPT to respond?

1. When it comes to digital marketing topics do not provide very basic / beginner level answers. Provide content that is geared more towards intermediate and advanced level.
2. Use a professional tone of voice.
3. When generating copy or content and I ask for a friendly tone of voice do not use overly friendly terms like Hello ladies or howdie entrepreneurs. Keep the tone professional but warm.
4. Where possible include examples in your answers
5. Always end each answer with a suggestion of 3 other thought provoking questions I could ask you on that topic
6. When I ask for YouTube titles always keep them to less than 70 characters
7. When I ask for Email subject lines always keep them to less than 7 words

Restrictions on the length of prompt inputs and answer outputs on Chat GPT

Is there a maximum prompt length?

There is a word limit for ChatGPT. The character limit for ChatGPT is roughly 800 words. If you try to input between 500 – 1000 it could fail

Is there a response limit?

length for ChatGPT using GPT-3.5 is 4,096 tokens (characters).
The maximum response

Does Chat GPT remember previous prompts and content?

According to [OpenAI](#), ChatGPT has a maximum context length of 8,192 tokens (characters) . This means you can ask questions about something previously mentioned in the conversation, without repeating yourself, and it will still understand what you're talking about – like a realistic human conversation.

Source: PC Guide August 2023

<https://www.pcguide.com/apps/chat-gpt-word-limit/>

Restrictions on the length of prompt inputs and answer outputs on Chat GPT

Is there a limit to the number of prompts you can ask?

ChatGPT currently restricts the number of times you can submit prompts to 30 messages per hour for users of the basic plan and a higher but unspecified number for ChatGPT Plus users, though this limit varies over time.

Each conversation is limited to 3000 words, and if either of these limits is met, the system will display an error message

Very generic questions won't get you the best results from Chat GPT

Let's say you want Chat GPT to write a blog post. Your prompt is

Write a blog post about why you should hire a garden maintenance company

The result is a very basic blog post

This prompt is poor because it lacks specificity and creativity.

It's too basic and doesn't provide enough context or direction for Chat GPT to generate valuable and engaging content.

Very generic questions won't get you the best results from Chat GPT

EV

Act as an expert gardener and write an informative 2000 word article targeting busy professionals who commute a lot and don't have time to look after their garden. In the article discuss 15 main advantages of hiring a garden maintenance company and what you should look for when choosing one

The Busy Professional's Guide to Garden Maintenance: 15 Advantages and What to Look For

Gardening is a rewarding endeavor that brings joy and serenity to many. However, for busy professionals who commute a lot, finding the time to maintain a garden can be a challenge.

Regenerate

That's where hiring a garden maintenance company comes into play. In this comprehensive

Send a message

ChatGPT may produce inaccurate information about people, places, or facts. ChatGPT August 3 Version

A better prompt would be

Act as an expert gardener and write an informative 2000 word article targeting busy professionals who commute a lot and don't have time to look after their garden. In the article discuss 15 main advantages of hiring a garden maintenance company and what you should look for when choosing one

But we could generate even better prompts ...

Example: How to create Blog posts using Chat GPT

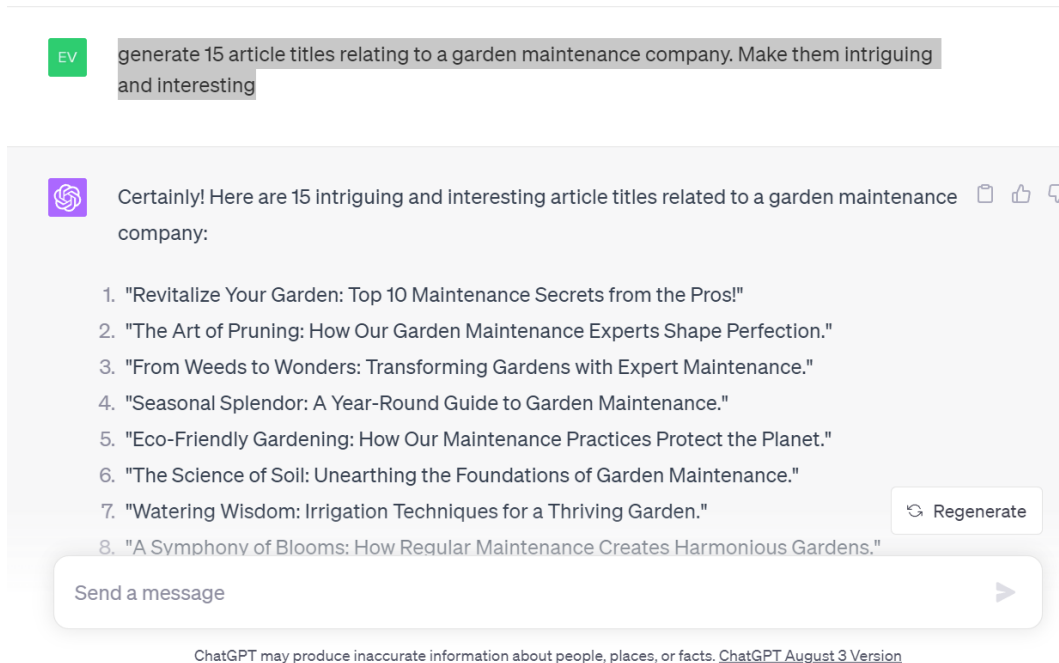

Step 1 – Get topic ideas

Suggested prompt:

(Replace “Garden maintenance company” with your type of business)

Generate 50 article titles relating to a garden maintenance company. Make them intriguing and interesting

Or
Generate 50 article titles relating to a garden maintenance company. Write them in a **click bait style**

Choose the headlines that you like and put them in a word document so you can use them in the future

How to create Blog posts

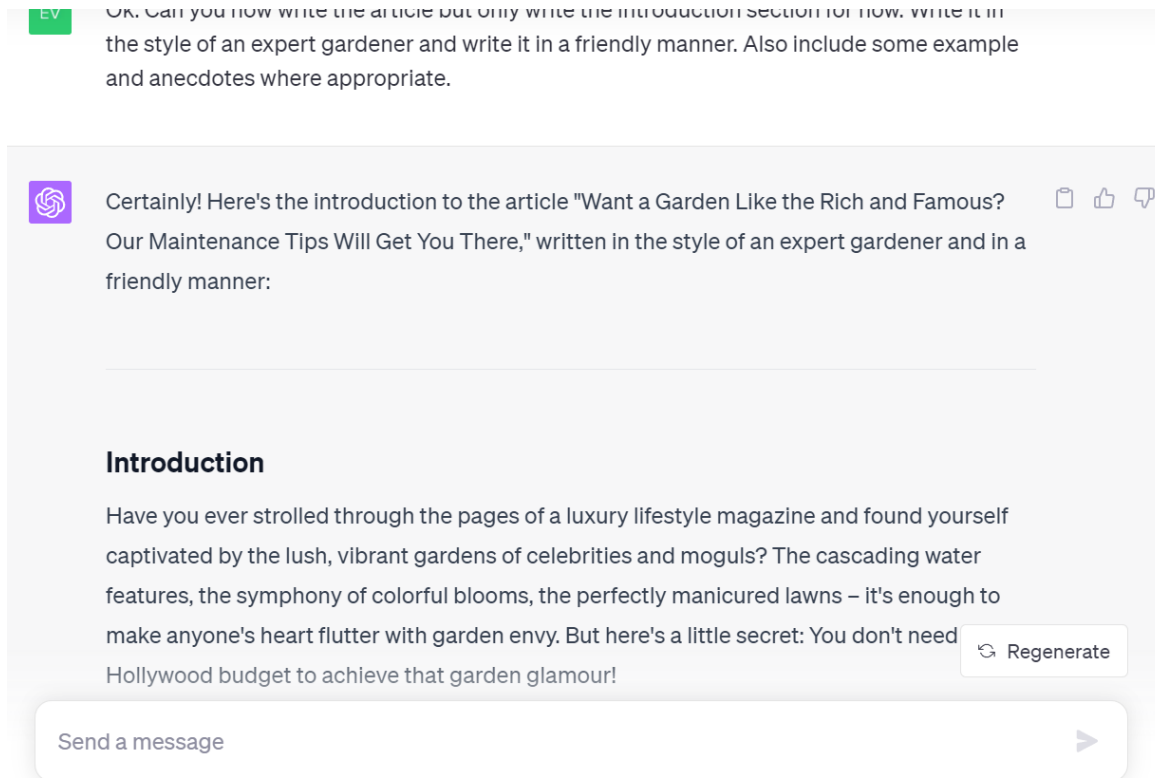

Review the outline. Are there any sections you want to remove or adapt? If so, just ask Chat GPT to revise it and make the change to the outline

Step 2 – Then generate an outline for the article

Generate an outline for the article “Want a Garden Like the Rich and Famous? Our Maintenance Tips Will Get You There” Write it in the style of a gardening expert and write it for busy professionals who don’t have time to look after their garden and commute to work a lot

Ensure you tell chat GPT how to write it and who it’s for

How to create Blog posts

ChatGPT may produce inaccurate information about people, places, or facts. ChatGPT August 3 Version

If you ask it to write the entire article it ends up being short and basic. We will ask it to write each section at a time

Step 3 – Ask Chat GPT to write the article, one section at a time

Ok. Can you now write the article but only write the introduction section for now. Write it in the style of an expert gardener and write it in a friendly manner. Also include some example and anecdotes where appropriate.

Note – you can reword this later and replace any anecdotes or examples with your own based on your own expertise.

How to create Blog posts

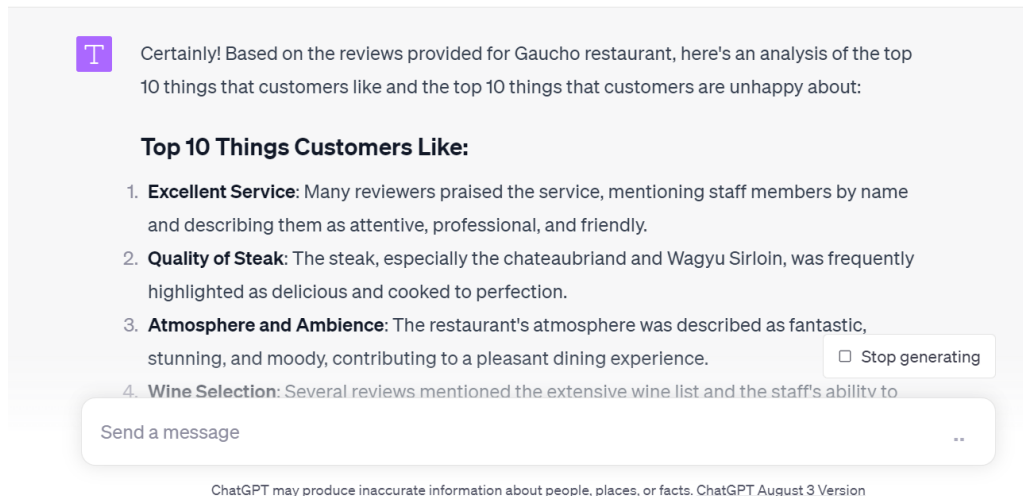

Step 4 – Ask it to write each section

Can you now write section 1
can you now write section 2 etc

Then copy and past each section
that it writes into a word
document.

Edit and rewrite anything you
think isn't suitable and
supplement it with your own
examples and expertise.

Competitor monitoring – analyse competitors testimonials

Want to know what your competitors are really good and bad at? Analyse their online reviews.

1. Go to their Google business profile or Trip advisor page or Booking.com page
2. Drag your mouse and copy 30-40 at once
3. Go into chat GPT and write this prompt

**Can you analyse these online reviews and list the top 10 things that customers like about this business and the top 10 things that customers are unhappy about:
(Then paste the Reviews after the :)**

- Access websites
- Speak your prompts
- Listen to the responses

There are some very useful apps

EV can you write a 100 word facebook post about this product? https://www.heavins.ie/p/shark-anti-hair-wrap-cordless-vac-stick-vacuum-cleaner--iz202uk/0622356262996?_sgm_campaign=scn_a54197f31e000&_sgm_source=0622356262996&_sgm_action=click

Used Web Requests

Sure! Here's a 100-word Facebook post about the Shark Anti-Hair Wrap Cordless Vacuum Cleaner:

"Say goodbye to tangled hair and stubborn dirt with the Shark Anti-Hair Wrap Cordless Vacuum Cleaner (IZ202UK)! 💡 This innovative vacuum features a self-cleaning brush roll and powerful suction to make cleaning a breeze. Enjoy up to 40 minutes of run time and the flexibility to reach every corner with its cordless design. Plus, it easily transforms into a handheld vacuum for quick clean-ups. Get yours today at Heavins and experience a more

☐ Stop generating

Chat GPT cannot currently analyse a web page if you paste in a url. But if you add an app using Chat GPT pro you can.

If you install an app that allows chat GPT to scan a web page eg. "Web response plugin"

Then you could prompt:

Can you write a 100-word Facebook post about this product?

<https://www.heavins.ie/p/shark-anti-hair-wrap-cordless-vac-stick-vacuum-cleaner>

What are chrome extensions for Chat GPT

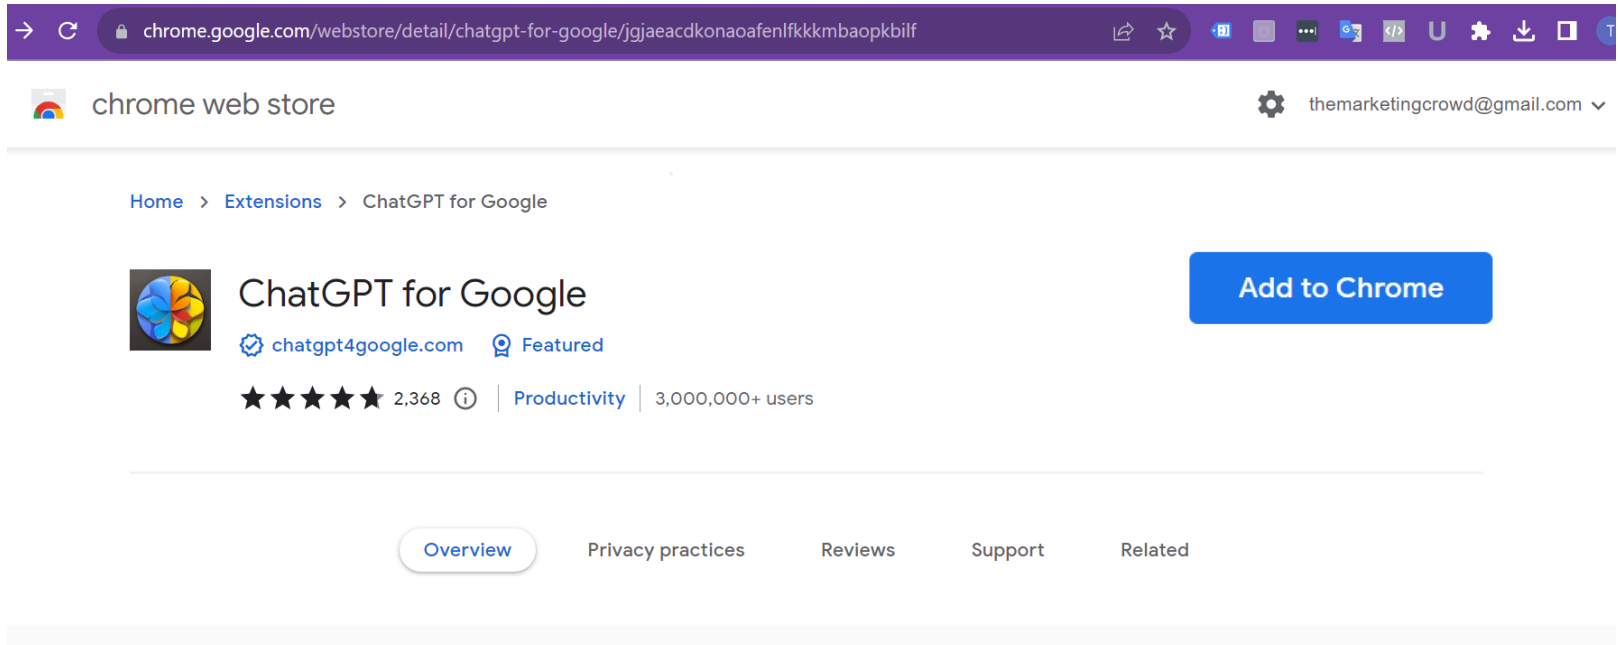

If you use Chrome browser you can add useful tools to the browser to do all sorts of things when browsing the internet. They are called extensions.

There are now hundreds of extensions that allow you to do things with Chat GPT more easily when you are browsing web pages

Here are some that I find very useful.

These extensions typically will allow you to do things that come with the pro version eg. Speak prompts, analyse web pages

1) Get Chat GPT results when you are using Google Search

Either do a Google search for “download Chat GPT for Google chrome extension” or click on this link

<https://chrome.google.com/webstore/detail/chatgpt-for-google/jgjaeacdkonaoafenlfkkkmbaopkbilf>

Then click on add to Chrome. It will then install it

1) Get Chat GPT results when you are using Google Search

The screenshot shows a Google search for "best email subject lines for a special offer". The search results include a list of subject lines and a sidebar on the right with ChatGPT results. A red arrow points from the text below to the ChatGPT sidebar.

Google

best email subject lines for a special offer

Images Examples Videos News Books Maps Flights Finance

All filters Tools SafeSearch

About 1,180,000,000 results (0.50 seconds)

Here are a few great sales and promotional email subject lines to consider:

- Exclusive sale—Members only shop today.
- Top-rated, back in stock. ...
- Back by popular demand, get your [product] while you can!
- We rarely do this. ...
- For a limited time, get [product] for half off.
- We're offering 25% off all [product category].

28 Best Email Subject Lines That Boost Open Rates

About featured snippets Feedback

ChatGPT GPT-4 Claude2 Bard

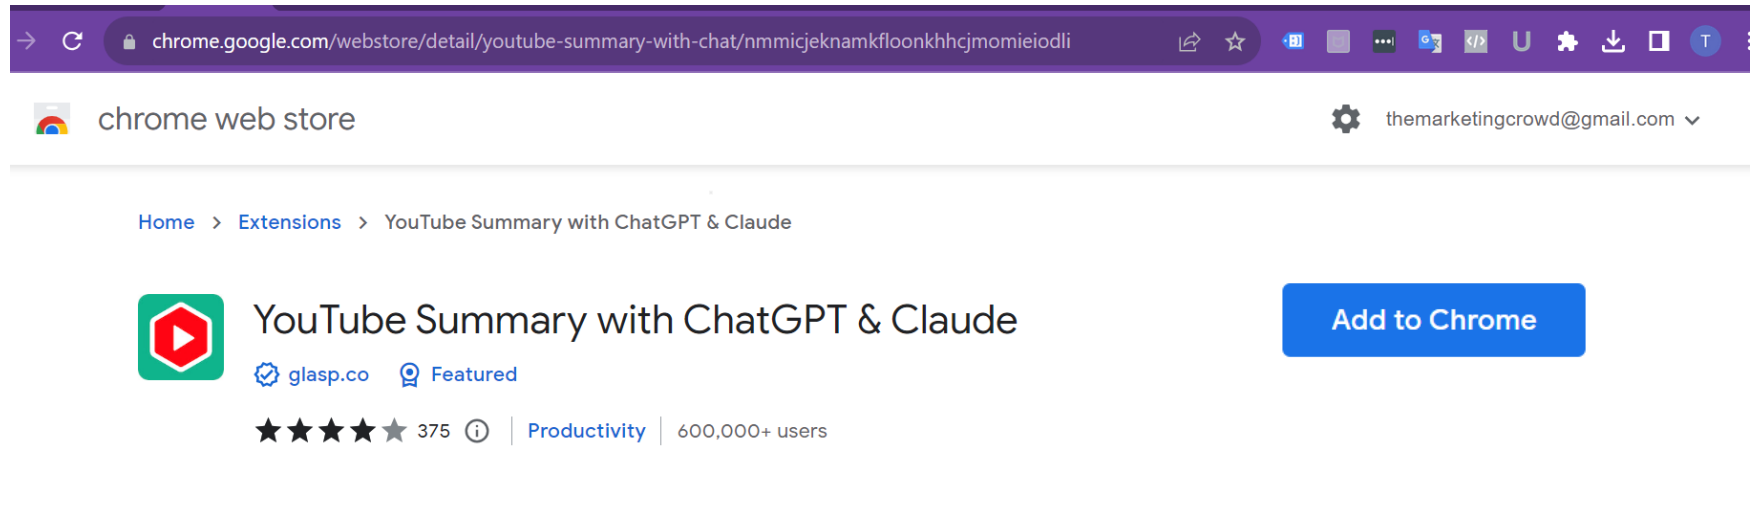

3. "Limited Time: Grab Your [Discount/Offer] Now!"
4. "[X]% Off [Product/Service]: Your VIP Access"
5. "Unlock Savings: [X]% Off [Product/Service] Awaits"
6. "Open for a Surprise: [X]% Off [Product/Service]!"
7. "Last Chance: [X]% Off Ends [Date]"
8. "Special Offer Alert: [X]% Off [Product/Service]"
9. "Hurry! [X]% Off [Product/Service] Expires Soon"
10. "Your Exclusive Invitation: [X]% Off [Product/Service]"

Remember to tailor the subject lines to match your specific offer and audience. It's a good idea to create a sense of urgency, highlight the value of the offer, and keep the subject line concise and engaging.

Chat Full Page Chat

When you search in Google the normal Google results will display
However, on the right-hand side you will also see Chat GPT's answer

2) Ask Chat GPT to summarise any YouTube Video

Either do a Google search for “YouTube summary with chat gpt chrome extension” or click on this link

<https://chrome.google.com/webstore/detail/youtube-summary-with-chat/nmmicjeknamkfloonkhhcjmomieiodli>

Then click on add to Chrome. It will then install it

2) Ask Chat GPT to summarise any YouTube Video

The screenshot shows a YouTube video player interface. The video title is "EMERGENCY EPISODE: Ex-Google Officer Finally Speaks Out On The Dangers Of AI! - Mo Gawdat | E252". The video is paused at 0:01 / 1:56:31. A Chat GPT overlay titled "Transcript & Summary" is visible on the right side of the video player. The overlay shows the video's transcript in English (auto-generated). The transcript text is as follows:

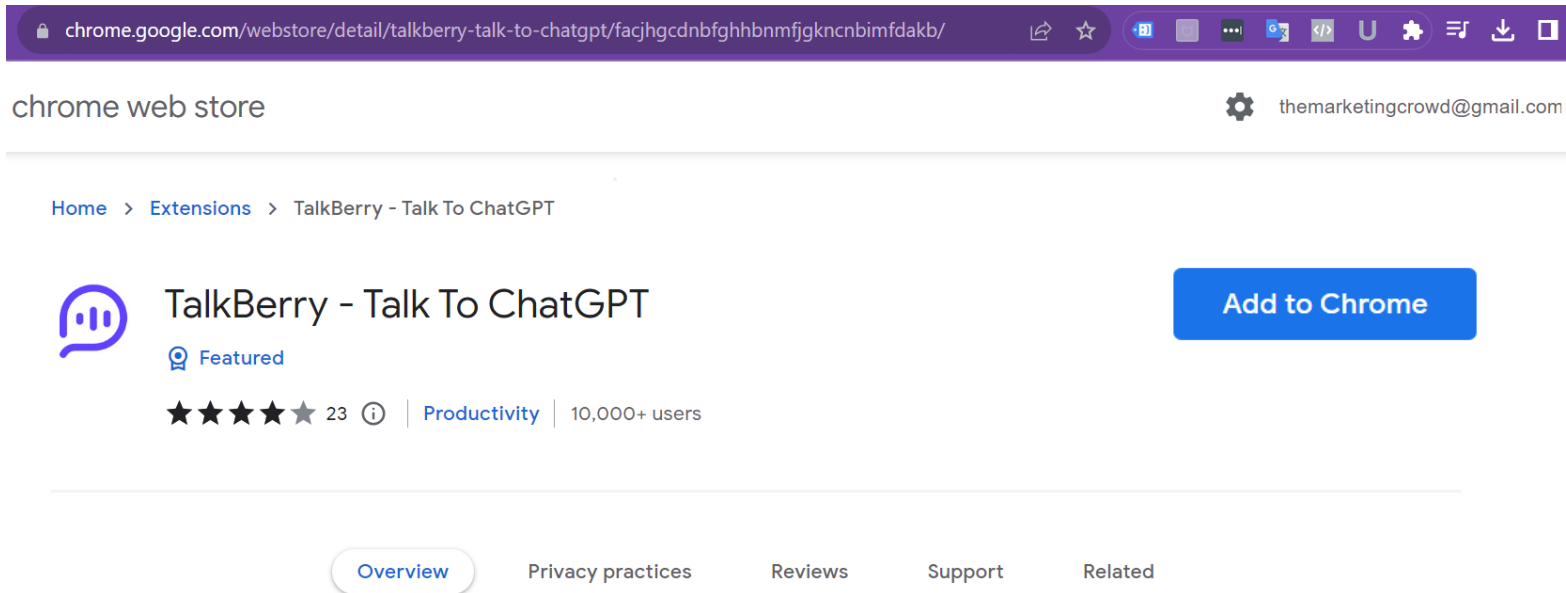

00:00 I don't normally do this but I feel like I have to start this podcast with a bit of a disclaimer Point number one this is probably the most important podcast episode I have ever recorded Point number two there's some information in this podcast that might make you feel a little bit uncomfortable it might make you feel upset it might make you feel sad so I wanted to tell you why we've chosen to publish this podcast nonetheless and that is because I have a sincere belief that in order for us to avoid the future that

00:35 we might be heading towards we need

Once installed, when you watch any YouTube video there will be a box for Transcript.
Click on the Chat GPT icon and it will open chat GPT
Chat GPT will then analyse the video transcript and will give you a summary

You can then start asking Chat GPT questions about what was contained in the video eg.
What were the main points that were said about x?

3) You can talk to Chat GPT on desktop instead of typing your prompts

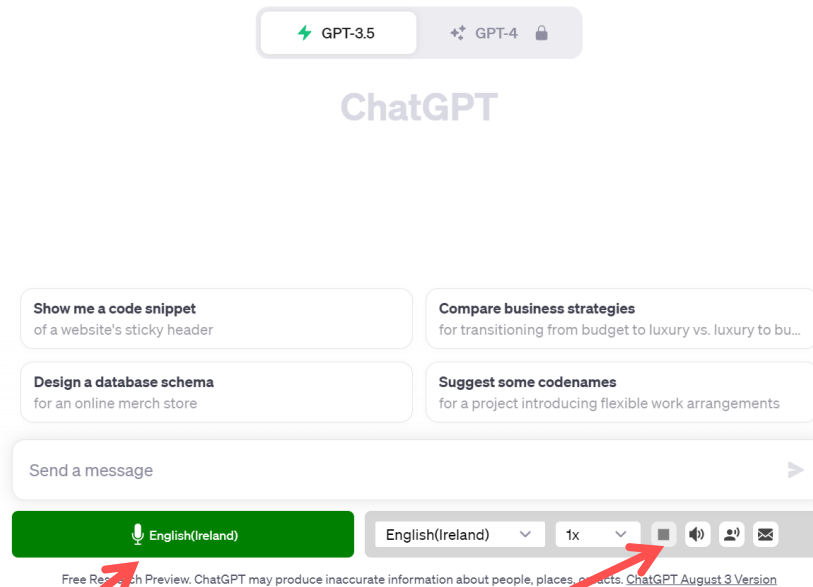

Either do a Google search for “Talkberry – talk to chat GPT chrome extension or click on this link

<https://chrome.google.com/webstore/detail/talkberry-talk-to-chatgpt/facjhgcndnbfgghbnmfjgkncnbimfdakb/>

Then click on add to Chrome. It will then install it

3) You can talk to Chat GPT on desktop instead of typing your prompts

Once installed, when you open Chat GPT and create a new chat you will see a green box with a microphone symbol

Click this – give access to your microphone – and then speak and say your prompt. Click the same button to submit it.

Chat GPT will then provide the answer and extension will also speak the answer – you can click on the stop button if you want to stop this. You can also change the accent and the speed
