

How Plan A New Website

What We Will Cover

1. Purchasing a domain and hosting package

- How to choose and register a domain name
- How to choose a hosting provider

2. Consider the main types of websites

- What type of website best suits your goals
- How much should you pay for a new website to be designed

3. What are the main options for creating low cost but high quality websites

- Ask a local web designer
- Buy a Wordpress theme and get it tailored to you
- Create your own site using site builder services

4. What needs to be on your site for effective digital marketing

- Ensure you have some fundamentals in place on your website
- How search engines work and why you need to think about it when planning your site.
- Why a well designed website helps you get more out of Social Media Marketing
- What stimulates visitors to enquire or purchase and why you need to think about it now?

How to choose and register a domain name

Pitfalls to avoid

- When it comes to picking a domain name, avoid creative spelling. It makes it hard for potential customers to guess your domain name.
- Avoid hyphens – it looks like you didn't get the name you wanted
- Any words you would have to spell out to a client are also bad. Your domain name should be intuitive so people can find your website easily.
- Don't obsess over getting keywords (e.g. Attic Insulation Dublin) in your domain to help your Google rankings. This has much less of an impact now than in the past. If your website content is strong, the domain won't matter.

How to choose and register a domain name

A .com or a .ie ?

Advantages of a .com

- Cheaper than .ie (typically €8 / year Vs €20 / year)
- Best option if you plan to target foreign customers in the future

Advantages of a .ie

- Easier to find a domain that isn't taken
- Immediately conveys you are an Irish business

How to choose and register a domain name

Where do you buy a domain name?

Blacknight.com
Register365.com

I recommend blacknight.com for their competitive prices and great customer service.

Note: When you buy a domain name you need to renew it every year. It is not a once off purchase – if you don't renew it each year you will lose it.

How to choose and register a domain name

Top Tips

Final tips when buying a domain

- If it is going to be the main web address for your business – and not just a domain you think you “might use” – buy it for 5-10 years as this will help your SEO
- Set it to automatically renew – not manually renew. This will avoid you ever losing your domain because renewal emails went into your spam folder

How to choose a hosting provider

What is hosting?

In order for your website to appear on the internet it needs to be on server

Rather than buy a server which is very expensive you can buy space on a server and it is called "Hosting".

It typically costs between €50 - €100 per year and has to be paid every year.

When you buy hosting you can also setup email accounts on your domain name e.g. sales@yourcompany.com

How to choose a hosting provider

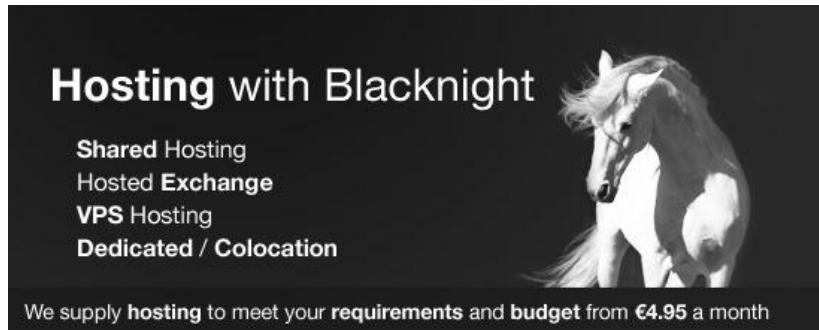

Tips when setting up hosting

Although it might seem easier to have your web design company provide the hosting – don't go down this route.

- You will pay more than if you simply bought it yourself
- Buying it yourself is very easy
- Owning your own hosting means you are never at the mercy of your web design company – you control the website and can easily give them access to it whenever you wish
- It makes it much easier for you to move away from a web design company in the future

How to choose a hosting provider

Hosting with Blacknight

- Shared Hosting
- Hosted **Exchange**
- VPS Hosting
- Dedicated / Colocation

We supply **hosting** to meet your **requirements** and **budget** from **€4.95** a month

Where can you get hosting?

Blacknight.com
Register365.com

I recommend blacknight.com for their competitive prices and great customer service.

On Blacknight.com choose the Linux Minimus package for around €50 + Vat per annum

Note – set it up to automatically renew each year to avoid your site going down if you miss the renewal notice

What We Will Cover

1. Purchasing a domain and hosting package

- How to choose and register a domain name
- How to choose a hosting provider

2. Consider the main types of websites

- What type of website best suits your goals
- How much should you pay for a new website to be designed

3. What are the main options for creating low cost but high quality websites

- Ask a local web designer
- Buy a Wordpress theme and get it tailored to you
- Create your own site using site builder services

4. Overview of the Trading Online Voucher

5. What needs to be on your site for effective digital marketing

- Ensure you have some fundamentals in place on your website
- How search engines work and why you need to think about it when planning your site.
- Why a well designed website helps you get more out of Social Media Marketing
- What stimulates visitors to enquire or purchase and why you need to think about it now?

What type of website suits your goals?

1. Informational website

This is where you just want to convey information about your product or service without selling anything. It could only be a few pages or be contain hundreds of pages.

Recommendation

Whether it is a small site or a large site you should aim for a content management system that uses software such as Wordpress. It enables you to add as many pages as you like (stored in a database) plus they can be easily be updated by logging into an administration panel.

What type of website suits your goals?

2. You want to sell online

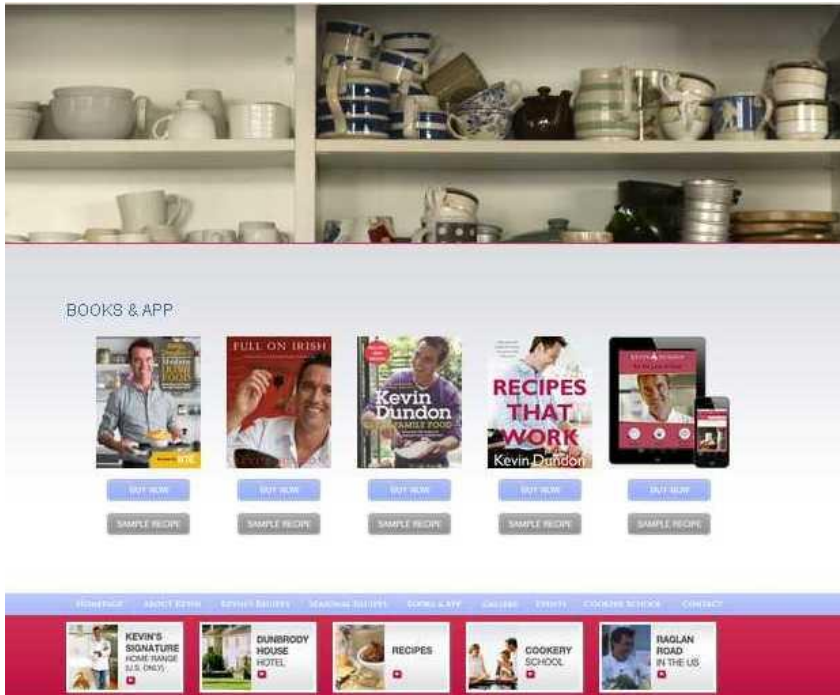

Option 1 – You're selling lots of products

If you wish to sell many products online you need an e-commerce website. This type of site is much more involved as you'll need a shopping cart, payment gateway, and possibly a merchant account or PayPal. You'll also need to calculate the tax and shipping fees for each item you're selling.

Recommendation:

You need an ecommerce system which has all the features of an online shop. Best options are WooCommerce (WordPress) or Magento or OS commerce

What type of website suits your goals?

2. You want to sell online

Option 2 – You only have a few products

If you only have a few products then an easier and much cheaper solution is to sell products using PayPal buy now buttons on your site.

PayPal takes care of the whole transaction process without purchasing each of the services separately. You simply pay a small fee to them for each transaction.

How much should you pay for a new website?

Custom design website

Typical prices:

5 page site €600 - €900 + VAT

10 page site €1,100 - €2,000 + VAT

Ecommerce site € 3,000 - €5,000 + VAT

What We Will Cover

1. Purchasing a domain and hosting package

- How to choose and register a domain name
- How to choose a hosting provider

2. Consider the main types of websites

- What type of website best suits your goals
- How much should you pay for a new website to be designed

3. What are the main options for creating low cost but high quality websites

- Ask a local web designer
- Buy a Wordpress theme and get it tailored to you
- Create your own site using site builder services

4. What needs to be on your site for effective digital marketing

- Ensure you have some fundamentals in place on your website
- How search engines work and why you need to think about it when planning your site.
- Why a well designed website helps you get more out of Social Media Marketing
- What stimulates visitors to enquire or purchase and why you need to think about it now?

What are the main options for creating low cost but high quality websites

Option1: Custom design website

Why custom design?

- You get to have full control of the design of every page.
- You can specify anything that you want on the site
- You know that your site will be unique to you – this is important for businesses such as hotels who want high visual impact and unique design tailored to their brand

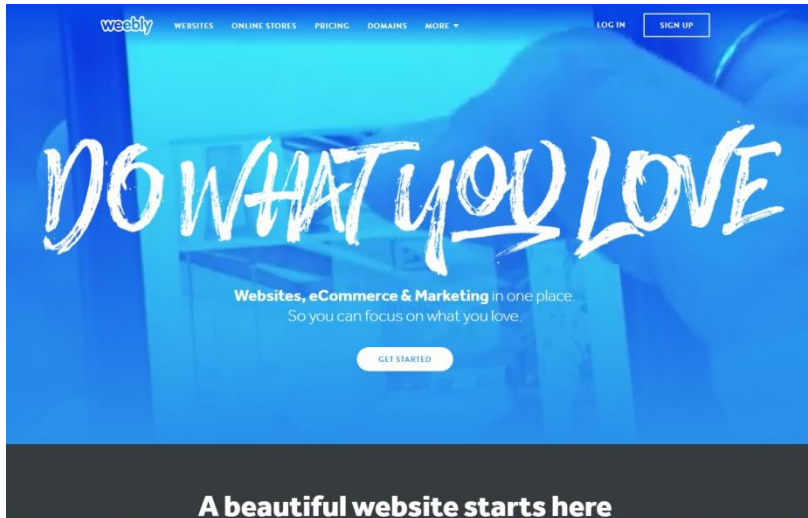

Factors which impact price

- The quality of the designer – some designers are excellent and some are very average. Remember that people will judge your business based on the design
- The number of pages – the more pages the more work involved.
- Any bespoke features that require programming
- Whether the content needs to be programmed into a content management system so you can update the site

When choosing a web designer ...

- Ensure they appear high up in Google for their own website
- Check that their client websites appear high up in Google
- Check with previous customers that they are nice to deal with

What are the main options for creating low cost but high quality websites

Option 2: Build your own using sitebuild websites

There are many sites you can go to where you can easily tailor one of their templates. Very easy to upload your images and copy and paste your text.

It's a cheap and cheerful way to get a web presence and ideal for someone starting out on a small budget.

Check out:

- Wix.com
- Weebly.com
- Squarespace.com

For ecommerce sites definitely check out shopify.com which is excellent.

What We Will Cover

1. Purchasing a domain and hosting package

- How to choose and register a domain name
- How to choose a hosting provider

2. Consider the main types of websites

- What type of website best suits your goals
- How much should you pay for a new website to be designed

3. What are the main options for creating low cost but high quality websites

- Ask a local web designer
- Buy a Wordpress theme and get it tailored to you
- Create your own site using site builder services

4. What needs to be on your site for effective digital marketing

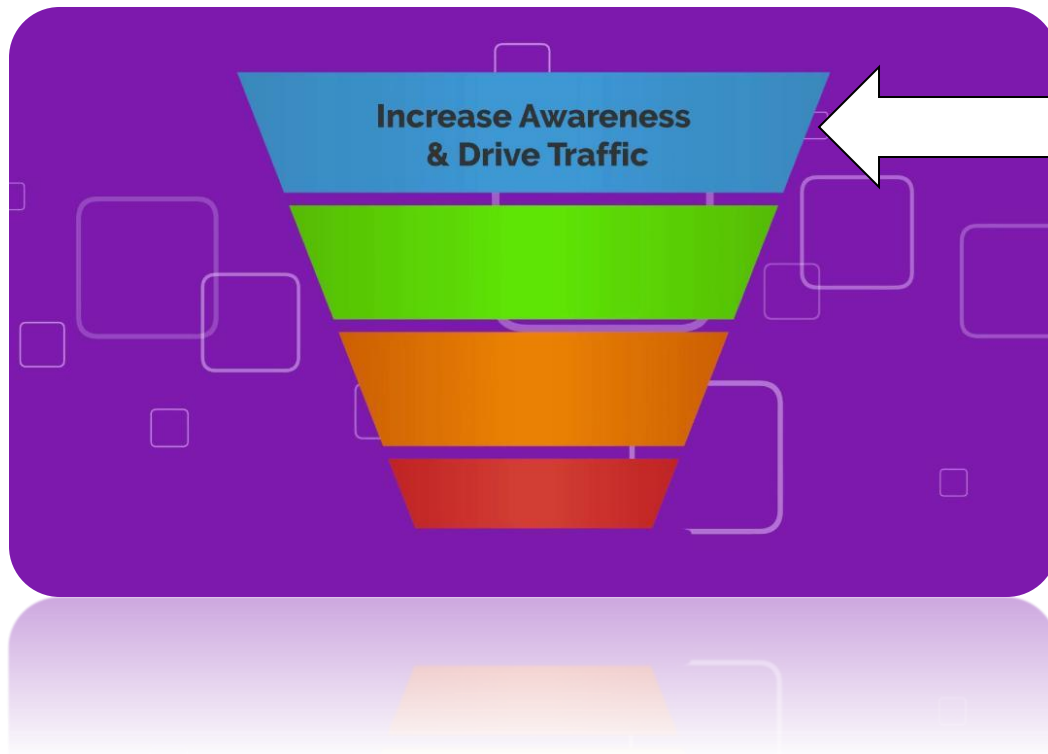

- Ensure you have some fundamentals in place on your website
- How search engines work and why you need to think about it when planning your site.
- Why a well designed website helps you get more out of Social Media Marketing
- What stimulates visitors to enquire or purchase and why you need to think about it now?

The Main Digital Marketing Elements – How they fit together

- Your website is at the centre of your Digital Marketing. It is your sales environment that you control. Without a website you will find it hard to get the most out of digital marketing.
- You need to ensure that this website is designed to turn visitors into enquiries and sales.
- Visualise Google, Social Networks and Email marketing as channels that you will use to drive traffic into your sales environment.

Use the sales funnel as the structure for your Digital Marketing Plan

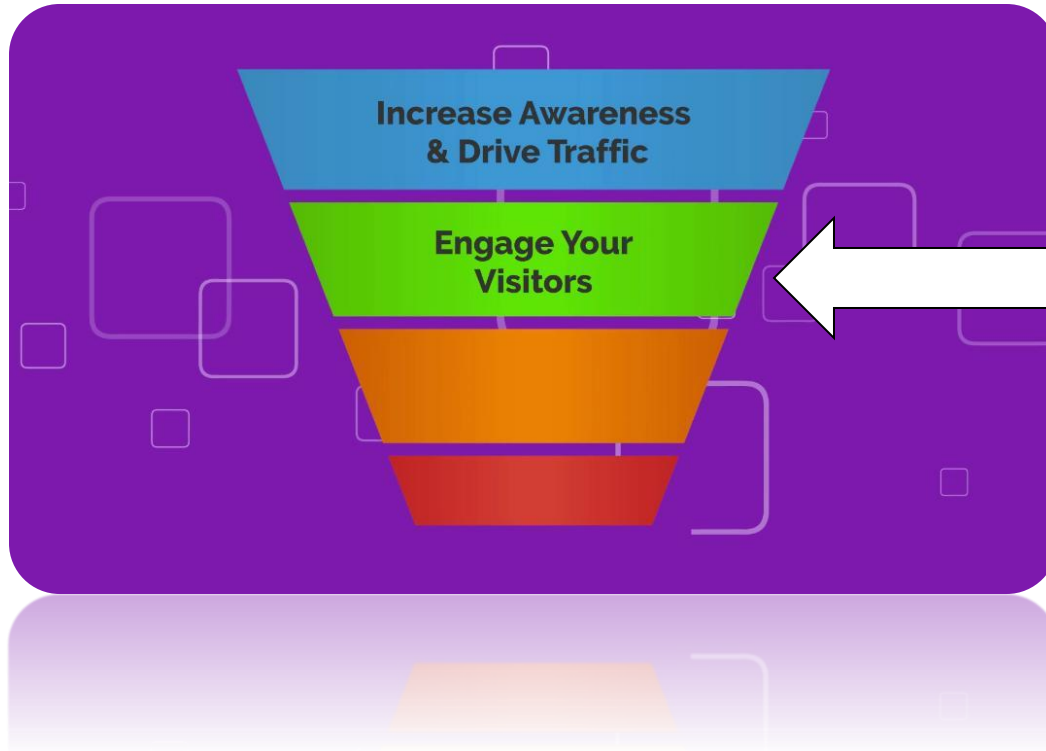

All of our businesses have a sales funnel whether we realise it or not.

At the top of the funnel there are millions of customers who have never heard of us. We need to use digital marketing to get discovered and drive people to our website.

This involves getting found through Google, social media, advertising etc.

Use the sales funnel as the structure for your Digital Marketing Plan

When people land on your website you need to work hard to get them to engage or else they will bounce off.

Therefore you need to ensure your website employs a range of tactics that makes visitors think:

- This is what I am looking for.
- This company looks credible and trustworthy.
- I'll browse some other pages

Use the sales funnel as the structure for your digital marketing plan

Once people engage and start browsing your site you now have a greater chance of converting them.

You need to employ a range of tactics that will make people think:

- This product service is exactly what I was looking for.
- Other customers say it's great.
- Now would be a great time to buy it.
- I'll enquire and ask a few questions about it or I'll order it now.

A typical conversion rate is 1%-3%

Use the sales funnel as the structure for your Digital Marketing Plan

- Once people buy your product or service you need to focus on building customer loyalty and repeat purchases.
- You should have a database of these customers and you should keep in touch with them through a variety of channels in order to up-sell and cross-sell other products and services.

There is a free and a paid version of Chat GPT

ChatGPT

1. Chat GPT Free Version

Create some custom instructions that you copy and paste and use when you are developing digital marketing ideas.

2. Chat GPT – paid version

If you have the pro version of Chat GPT (€20 / month) you can create a custom GPT that specialises in your digital marketing

And there are other Generative AI tools that have emerged in the market

Google (Gemini)

Google has their alternative to Chat GPT called Google Gemini

<https://gemini.google.com/app>

Some prompts you should be aware of

Teach Me:

Ask ChatGPT to provide an explanation or teach you about a specific topic.

Example: "Teach me how to get more customers for my hair salon business."

Some prompts you should be aware of

EV

Can you give me a step by step guide to building an irresistible online presence for my hair salon business?

Certainly! Building an irresistible online presence for your hair salon business is crucial in today's digital age. Follow this step-by-step guide to create a compelling and engaging online presence that attracts potential customers and keeps them coming back for more.

Step 1: Define Your Brand Identity

1. **Identify Your Unique Selling Proposition (USP):** Determine what sets your salon apart from competitors. Is it your specialty services, personalized consultations, or trendy styles?
2. **Create a Brand Persona:** Develop a consistent brand voice and personality that resonates with your target audience. Decide whether your brand is sophisticated, friendly, edgy, ...

Regenerate

Send a message

After getting a reply to “teach me” ...

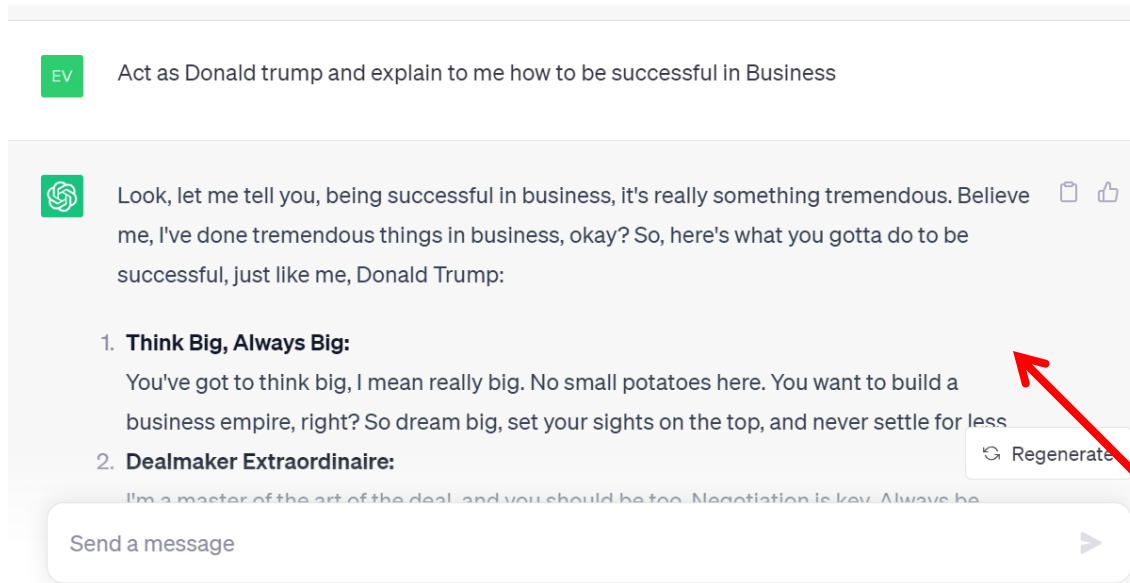

You could then Iterate / delve deeper

Delve deeper into one of the points Chat GPT has given you. For example

Can you give me a step-by-step guide to building an irresistible online presence for my hair salon business?

Then ask it about other points and you will get more detail.

Some prompts you should be aware of

Act as

In this type of prompt, you instruct ChatGPT to respond as if it were a specific person, character, or entity.

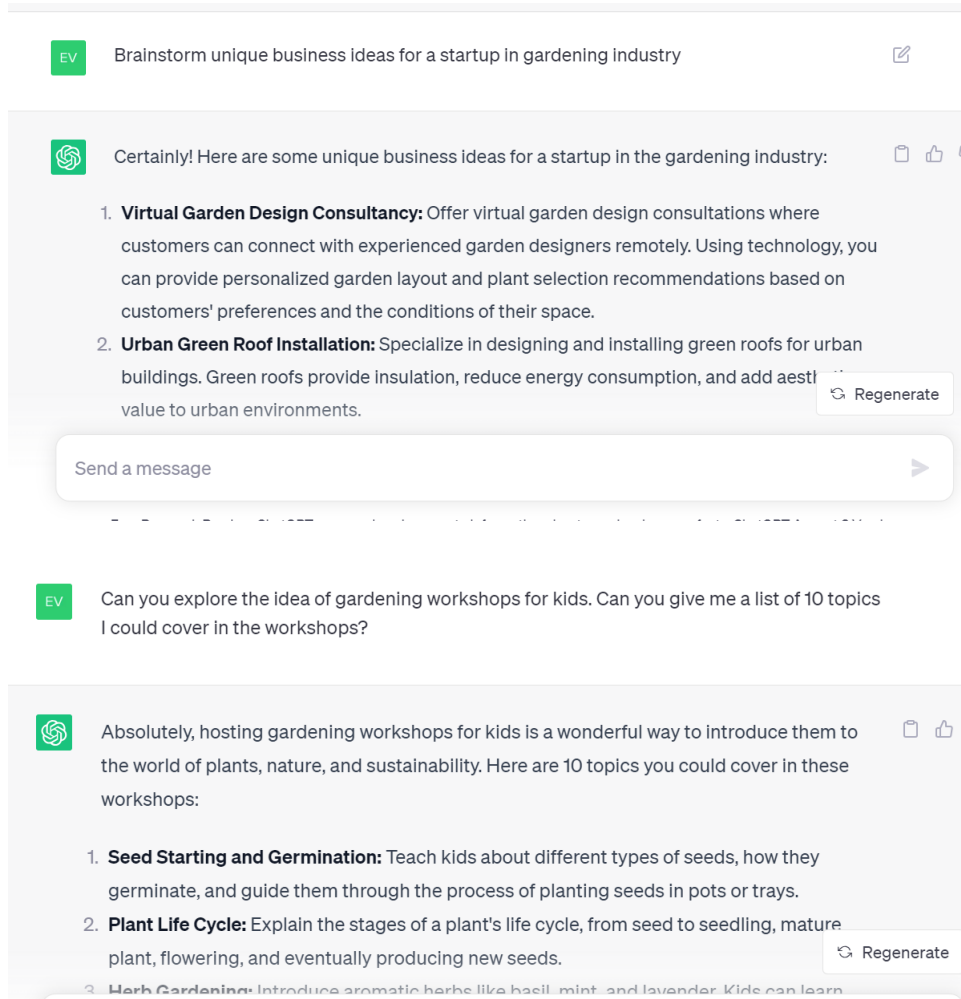

Example: “Act as a recruitment expert and explain 10 pitfalls to avoid when hiring a social media manager”

The content will be written in a more expert voice and will have more detailed expertise

Example: Act as Donald trump and explain to me how to be successful in business “

The content will be in Donald Trump's tone and language

Some prompts you should be aware of

Brainstorm Ideas:

Explanation: Ask ChatGPT to brainstorm ideas on a given topic.

Example: “Brainstorm unique business ideas for a startup in gardening industry.”

Then delve deeper. E.g.

“Can you explore the idea of gardening workshops for kids. Can you give me a list of 10 topics I could cover in the workshops?”

ChatGPT 3.5 ▾

act like a website marketing expert and recommend the pages I should have my website for a dental practice

Absolutely! For a dental practice website, you'll want to ensure it not only showcases your services but also builds trust with potential patients. Here are some essential pages you should consider including:

1. **Home Page:** This is the first impression visitors will have of your practice. It should be welcoming, informative, and provide a clear overview of your services and what sets your practice apart.
2. **About Us:** Share your practice's story, mission, and values. Include information about your dentists, their qualifications, and any specializations or areas of expertise.
3. **Services:** Detail the range of dental services you offer, from routine cleanings and exams to specialized treatments like orthodontics or cosmetic dentistry. Make sure to include descriptions of each service and any relevant images or deos.

Get help with defining your website goals and strategy

I'm creating a new website for my business. Act like a website marketing expert and help me define the main goals and features I should include to attract customers and generate sales.

Get help with creating a website brief for a web designer

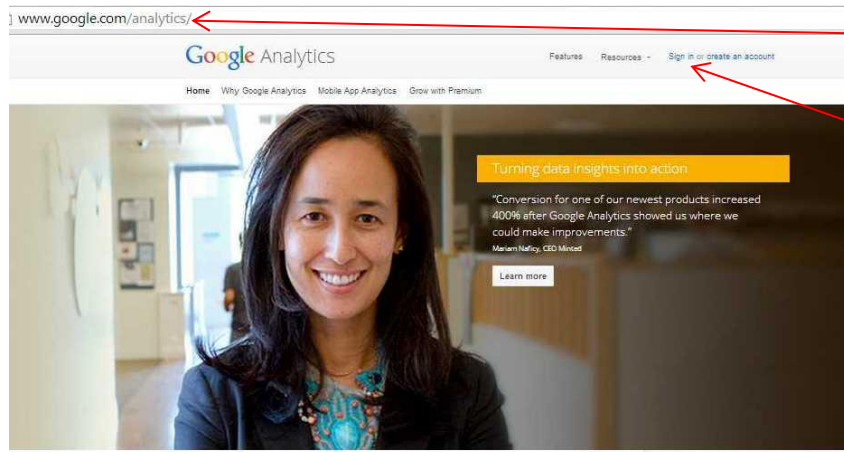

Act like a website marketing expert and create a website brief for my website, including homepage layout, key pages, color scheme, and functionality recommendations."

1. Get a website and ensure it has important components

1. Get a quality website that showcases your products and services.
2. Add Google analytics to this website – This will allow you to see what is happening on your website - what is working and not working - and what needs to be improved.
3. Add remarketing code –Facebook remarketing pixel. This will enable you to get back in front of website visitors through retargeting ad campaigns.
4. Add ways to motivate visitors to leave their email address (lead magnets)

2. It is essential that Google analytics is installed on your site

Install Google Analytics

- Go to [google.com/analytics](https://www.google.com/analytics/)
- **If you have a Google account** click “sign in” top right and sign in. You have a Google account if you have a gmail, YouTube or Google adwords login
- Sign in and then complete the form and get your Google analytics code
- Install the code on your website

Note: You can ask your web designer to do this for you or you can add the code yourself.

Access our free mini course on Google analytics 4

You'll learn how to answer important questions regarding what is working well in your digital marketing and website using Google Analytics 4

If you use Google Analytics it's important to know that the current version is being discontinued in July 2023 and you need to switch to the new version which is Google Analytics 4.

If you would like to understand some of the reports in Google Analytics 4 you can sign up for our free mini course here

<https://themarketingcrowd.ie/free-google-analytics-4-mini-course/>

3. You will want to advertise to recent website visitors so install the Facebook Pixel.

If 97% of your website visitors don't enquire or purchase wouldn't you want to get back in front of them again?

Remarketing using ads on Facebook and Instagram is a powerful way of targeting people who have visited your website recently. These people are interested in your product or service but might not have been at the point of purchase.

By retargeting them you are keeping your brand top of mind and re-prompting them to consider your product or service

How to target your website visitors

How it works:

1. *You generate a tracking pixel and you (or web designer) adds it to your web pages*
2. *You configure the audience rules e.g. are you targeting all visitors to the site or just specific pages. Over what time period 30 days, 60 days.*
3. *After the audience starts building over time, you then create an ad set for your campaign targeting this audience*

How to setup conversion tracking – Add your pixel

Step 1: Add your Facebook Pixel to your website

You have to have the Facebook pixel on your website in order for this to work.

Watch my tutorial videos which show you how to setup retargeting audiences and how to get the pixel

<https://themarketingcrowd.ie/how-to-start-retargeting-your-website-visitors-on-facebook-instagram/>

4. You will want to email your website visitors so incorporate ways to capture email addresses

If 97% of your website visitors don't enquire or purchase wouldn't you want to get back in front of them again?

If you can motivate your website visitors to leave their email address you then have the chance to follow up with monthly emails containing helpful content and special offers.

You will need an email marketing tool

I recommend Mailerlite.com which is free to use if you have less than 1,000 email addresses.

4. You will want to email your website visitors so incorporate ways to capture email addresses

Examples of ways to capture email addresses.

- Offer a discount on the first order
- Sign up for our monthly news and offers
- Download our guide which shows you 20 ways to do x

1 Get found in Google organic search results

When it comes to driving traffic to your website, getting found high up in Google search results needs to be your top priority. Even though I have included getting found on Google as something you would really focus on after you have setup your site for conversion and engagement, in reality, you should be thinking about SEO BEFORE and not after you build your website.

The essence of SEO is that you have a page for every big topic you want to be found for. Therefore, you will need a dedicated page for all of your main products/services and some other topics that customers might be searching for.

3. Key actions to provide a good page experience

GOOGLE'S
PAGE
EXPERIENCE
UPDATE

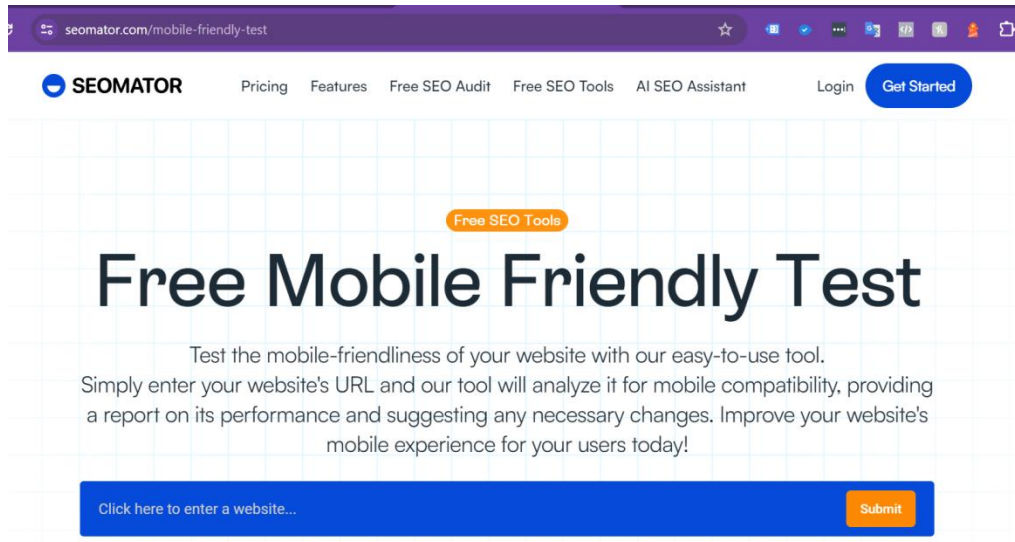

Whether Google thinks your page provides a good experience

It isn't sufficient to just be trusted and relevant

Your site also needs to be secure, mobile friendly and needs to pass some "Core web vitals" tests such as page load speed and page responsiveness.

Next Steps: 1 – Check that Google Sees your site as mobile friendly

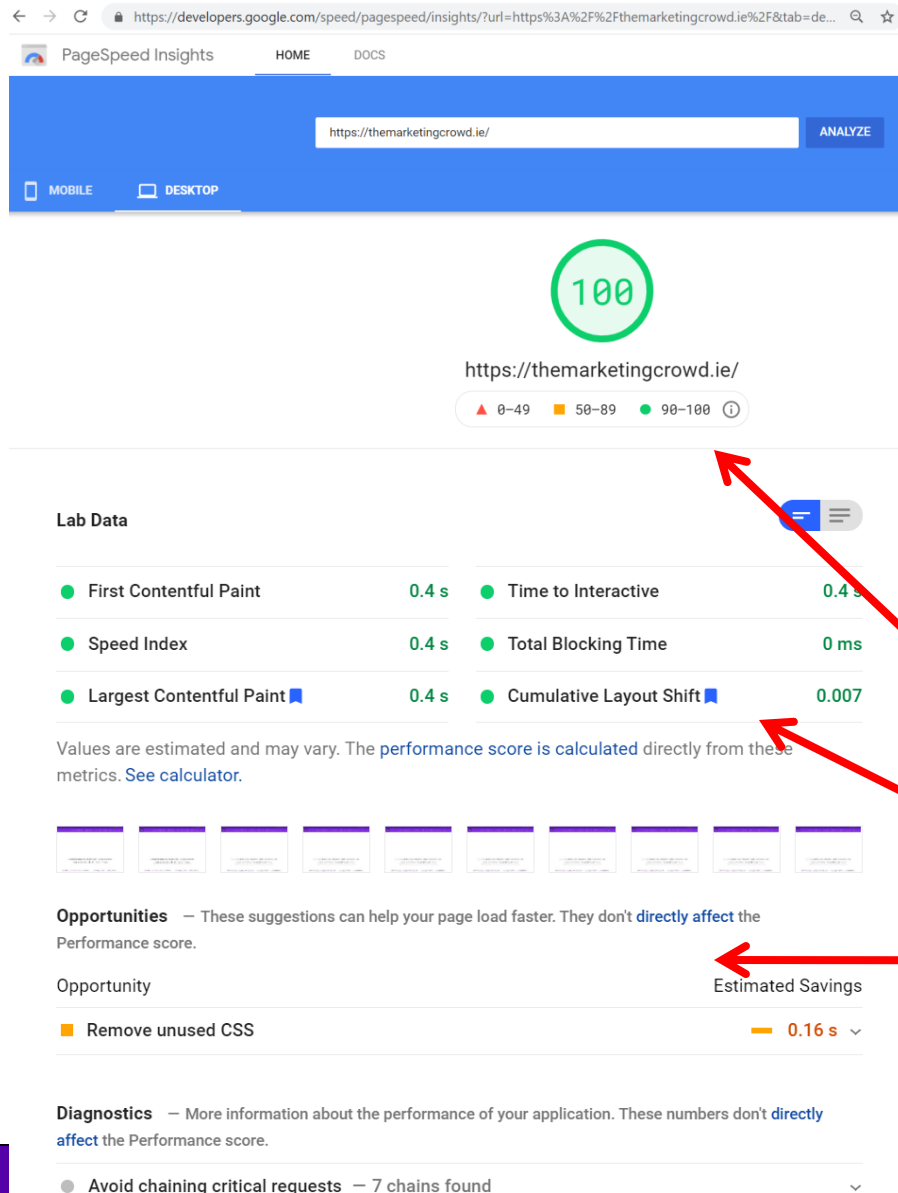

The screenshot shows the Seomator website's mobile-friendly test tool. The browser address bar displays 'seomator.com/mobile-friendly-test'. The page features a navigation bar with links for Pricing, Features, Free SEO Audit, Free SEO Tools, AI SEO Assistant, Login, and a Get Started button. The main heading is 'Free Mobile Friendly Test', preceded by a 'Free SEO Tools' badge. Below the heading, a paragraph explains the tool's purpose: 'Test the mobile-friendliness of your website with our easy-to-use tool. Simply enter your website's URL and our tool will analyze it for mobile compatibility, providing a report on its performance and suggesting any necessary changes. Improve your website's mobile experience for your users today!'. At the bottom, there is a blue input field with the placeholder text 'Click here to enter a website...' and an orange 'Submit' button.

Use the a tool to check if Google sees your site as mobile friendly. It isn't sufficient to thing it is mobile friendly - it might look mobile friendly but could still fail

<https://seomator.com/mobile-friendly-test>

If your site fails this test contact your Web developer

Next Steps: 3 – Check your Core Web Vitals (Page speed) scores

1. Use Google's Page Speed Insights tool to check your scores

<https://developers.google.com/speed/pagespeed/insights/>

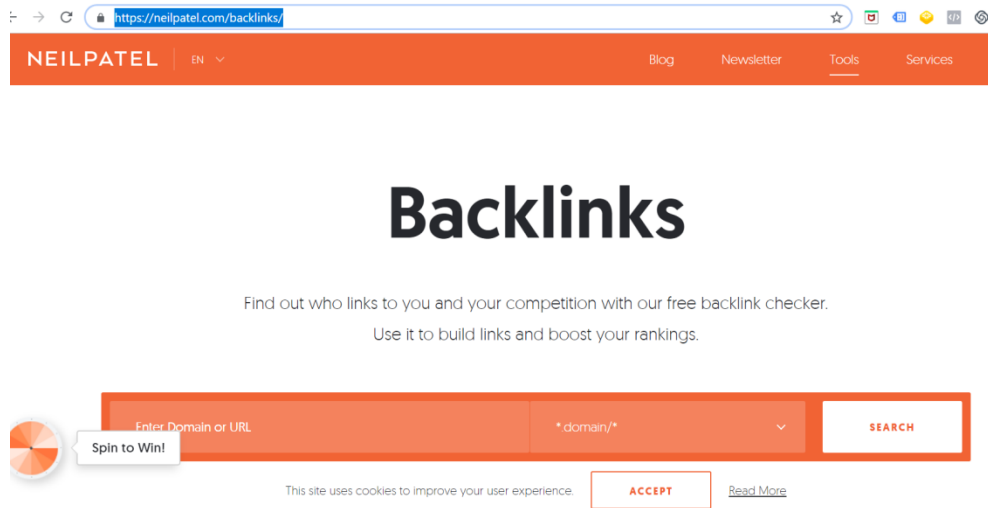

Or use <https://gtmetrix.com/>

It will give you an overall score out of 100 for both mobile and Desktop

When you scroll down it will tell you your core vitals scores

It will also indicate what you should work on to improve your scores

Check how much Google currently trusts you using Link Explorer (Domain authority)

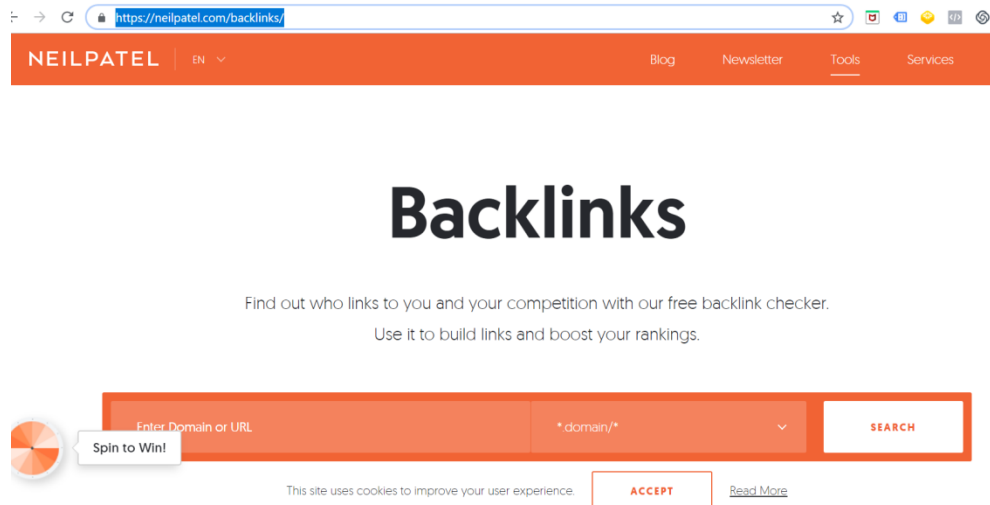

The screenshot shows the Neil Patel Backlinks tool interface. At the top, there's a navigation bar with the Neil Patel logo and links to Blog, Newsletter, Tools, and Services. The main heading is "Backlinks". Below it, a subheading reads: "Find out who links to you and your competition with our free backlink checker. Use it to build links and boost your rankings." The central part of the interface is a search form with an orange background. It has a text input field labeled "Enter Domain or URL", a dropdown menu with the placeholder text "* domain/*", and a "SEARCH" button. To the left of the form is a "Spin to Win!" icon. Below the form, there's a cookie consent banner that says "This site uses cookies to improve your user experience." with "ACCEPT" and "Read More" buttons.

How to check Domain Authority for your site

You can check your domain authority on <https://neilpatel.com/backlinks/>

Look at how many backlinks you have and the quality – using Neil Patel's Backlink Checker tool

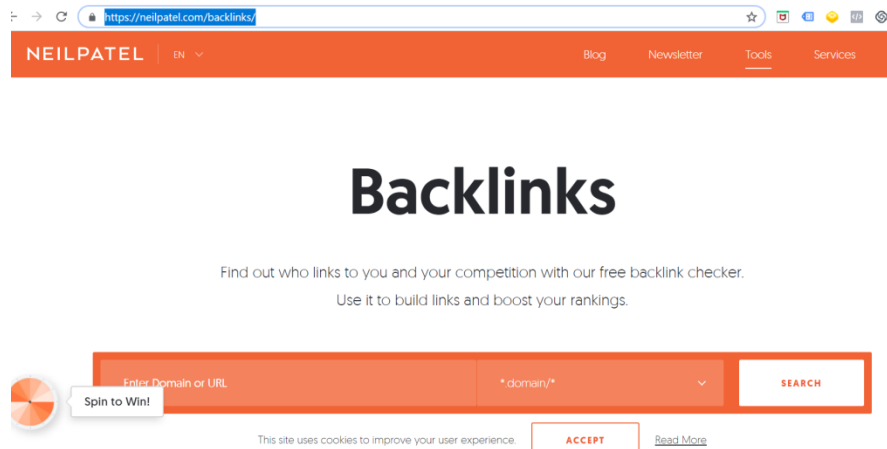

The screenshot shows the Neil Patel Backlink Checker tool in a web browser. The address bar displays <https://neilpatel.com/backlinks/>. The page has an orange header with the Neil Patel logo and navigation links for Blog, Newsletter, Tools (which is underlined), and Services. The main heading is "Backlinks" in a large, bold, black font. Below it, a subheading reads: "Find out who links to you and your competition with our free backlink checker. Use it to build links and boost your rankings." The search interface consists of an orange bar with a text input field labeled "Enter Domain or URL", a dropdown menu showing "* domain/*", and a "SEARCH" button. To the left of the search bar is a "Spin to Win!" wheel icon. At the bottom of the page, there is a cookie consent banner that says "This site uses cookies to improve your user experience." with an "ACCEPT" button and a "Read More" link.

You can check your backlinks on

<https://neilpatel.com/backlinks/>

Sign in with your Gmail address and you will see all the backlinks – not just the first 10

Also look at your key competitors and the sites appearing high up on page 1. Look at how many links these sites have and the quality

2 - Check how much Google currently trusts you using Neil Patel's Backlink Checker tool (Domain authority)

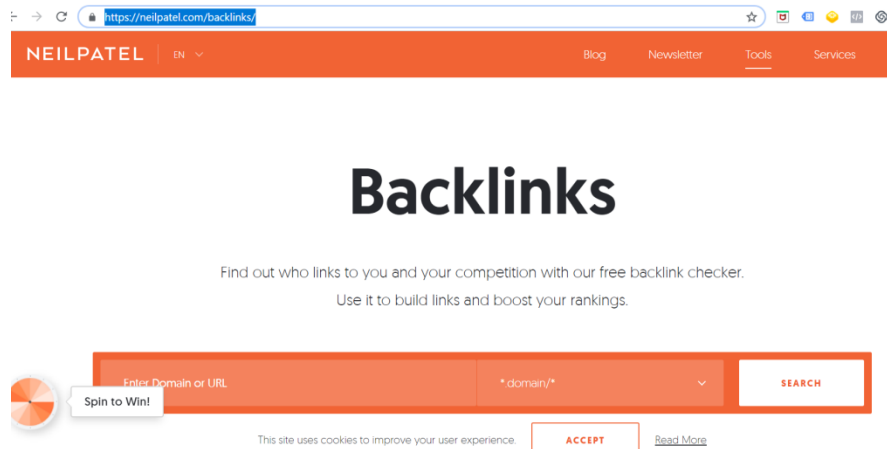

The screenshot shows the Neil Patel Backlinks tool interface. At the top is an orange navigation bar with the 'NEILPATEL' logo, a language dropdown set to 'EN', and links for 'Blog', 'Newsletter', 'Tools' (which is underlined), and 'Services'. Below the navigation bar, the word 'Backlinks' is displayed in a large, bold, black font. Underneath, a subtitle reads: 'Find out who links to you and your competition with our free backlink checker. Use it to build links and boost your rankings.' The main feature is a search bar with an orange border. It contains a text input field with the placeholder 'Enter Domain or URL', a dropdown menu with the placeholder '* domain/*', and a white 'SEARCH' button. To the left of the search bar is a 'Spin to Win!' wheel icon. Below the search bar, a cookie notice states: 'This site uses cookies to improve your user experience.' with an 'ACCEPT' button and a 'Read More' link.

How to check Domain Authority for your site

You can check your domain authority on <https://neilpatel.com/backlinks/>

Also look at your key competitors and the sites appearing high up on page 1. Look at how many links these sites have and the quality

The screenshot shows the Neil Patel Backlinks checker tool. At the top, there's a navigation bar with the Neil Patel logo and links for Blog, Newsletter, Tools, and Services. The main heading is "Backlinks". Below it, a subheading says "Find out who links to you and your competition with our free backlink checker. Use it to build links and boost your rankings." The search interface consists of a text input field labeled "Enter Domain or URL", a dropdown menu currently showing "* domain/*", and a "SEARCH" button. A "Spin to Win!" wheel icon is on the left. At the bottom, there's a cookie consent banner with an "ACCEPT" button and a "Read More" link.

Look at competitors backlinks

Also look at your key competitors and the sites appearing high up on page 1. Look at how many links these sites have and the quality

Think of Pragmatic ways to build links

1. Look at competitor sites and see which sites are linking to them. Use the Open Site explorer tool to view these links. Approach these sites for a link.
2. Ask suppliers to link to you. Offer a customer testimonial to place on their site with a link to yours.
3. If you advertise with local newspapers or radio stations request a link.
5. Sponsor a local charity and ask for a link in return – many charities have a “thank you” page
6. Approach related companies in your chamber of commerce and request reciprocal links

Focus on What Google wants sites to do

Create Useful content

Create powerful content that other sites will want to link to or people on social media will want to link to. Examples include:

- Write your own blog articles / tips
- Create "How to videos" which will help customers
- Create books which will help customers
- Generate a huge list related to your industry : 101 things you should know about something
- Generate a list of 200 useful blogs relating to your industry. This is something other sites will link to or people from Facebook / Twitter will link to
- Useful business tools – e.g. SEO tools, tax calculators, life expectancy calculator

Note: The future of SEO is in creating great content that people will want to recommend and link to. These are the sites Google wants high up

Use an AI tool like Chat GPT to help you

ChatGPT 4o ▾

Act like an SEO expert and recommend ways I can generate backlinks for my Dog sofa website

Generating high-quality backlinks is essential for improving your dog sofa website's search engine rankings and driving organic traffic. Here are some effective strategies for generating backlinks:

1. Create High-Quality, Shareable Content

- **Blog Posts:** Write comprehensive and informative blog posts on topics like "Choosing the Best Dog Sofa," "Benefits of Orthopedic Dog Sofas," and "How to Clean Your Dog Sofa."
- **Guides and How-Tos:** Develop detailed guides on related subjects. For example, a guide on "Pet-Friendly Home Decor" can attract backlinks from interior design and pet blogs.
- **Infographics:** Create visually appealing infographics that summarize important information. These are highly shareable and can attract links from blogs and social media.
- **Videos:** Produce engaging videos demonstrating the features and benefits of your dog sofas, which can be shared on YouTube and embedded on other websites.

2. Guest Blogging

- **Identify Relevant Blogs:** Look for pet-related, home decor, and lifestyle blogs that accept guest

Ask it: Act like an SEO expert and recommend ways I can generate backlinks for my Dog sofa website

What We Will Cover

1. Purchasing a domain and hosting package

- How to choose and register a domain name
- How to choose a hosting provider

2. Consider the main types of websites

- What type of website best suits your goals
- How much should you pay for a new website to be designed

3. What are the main options for creating low cost but high quality websites

- Ask a local web designer
- Buy a Wordpress theme and get it tailored to you
- Create your own site using site builder services

4. Overview of the Trading Online Voucher

5. What needs to be on your site for effective digital marketing

- Ensure you have some fundamentals in place on your website
- How search engines work and why you need to think about it when planning your site.
- Why a well designed website helps you get more out of Social Media Marketing
- What stimulates visitors to enquire or purchase and why you need to think about it now?

To get the most from social media you should drive people to your website where they will get more info and then enquire or purchase

Use social media platforms to establish a presence and grow your followers.

When followers see a post there is only so much information you can provide

They will want more details e.g. Read testimonials, check returns policy, watch videos

So you need to send people from Social Media to your website.

But you have to get some important things right ...

Ensure your website loads quickly

Facebook tells us that when people click on a link on Facebook, 40% of people abandon if it takes more than 3 seconds for a page to load

Use [Gtmetrix.com](https://gtmetrix.com) to check your page speed

Ensure you drive them to a page that is just about what the post or ad was about

Never drive people to your homepage or a page that is about multiple products or services

Always drive people from social media to a page that is solely about that was in your post or ad

Therefore, the strategy from SEO about having a page for every topic also applies to Social Media

When planning a website, Having a page for every product or service is crucial for Social Media and SEO

Ensure your website isn't a leaky bucket

Once you have a website It's tempting to focus on driving traffic to your website.

However, if you do, you could be spending lots of time and money driving traffic into a website that is not geared up to convert the traffic into enquiries and sales.

You could be spending lots of time driving traffic into a leaky bucket.

You should focus on employing tactics that will

1. Engage your website visitors
2. Then convert them into enquiries and sales

Setup your website to engage visitors – Checklist of tactics for your website

◆ **Top 5 Things Customers Look For in a Dublin Dog Grooming Business**

As a marketing expert, I've identified the following as the top 5 factors that influence a dog owner's decision when choosing a grooming service in Dublin:

1. Expert Care and Safety:

- Above all, customers want to know their beloved pet is in safe hands.
- Highlight your groomers' qualifications, experience, and any certifications.
- Emphasize a calm and gentle environment, free from stress for dogs.

2. Quality Grooming Services:

- Offer a wide range of grooming services tailored to different breeds and coat types.

I have a hair salon business and I want to test different offers for new customers on my website to see which one works best. Act like a marketing expert and brainstorm 10 different offers I can try

Absolutely! When testing different offers to attract new customers to your hair salon, you want a range of incentives that cater to different motivations. Here are 10 diverse offers you can experiment with:

1. First-Time Discount

Offer a flat percentage discount (e.g., 20% off) for first-time customers. This is a classic and straightforward incentive that appeals to price-conscious individuals.

2. Free Add-On Service

Provide a complimentary add-on with their first appointment, such as a free deep conditioning treatment, scalp massage, or hair mask. This makes customers feel like they're getting extra value without directly discounting your core service. ↓
