Demo 1 : How to edit a video (multiple clips plus voiceover)

How Edits is integrated with Instagram and how to post your Reel

Demo 2: How to edit a video where someone is speaking to camera

Video equipment

How to get started

- When you open the app it will prompt you to continue with an Instagram account
- If this is not the account you want to use tap on Switch account
- Choose the account you want to use (This means, which account are you making the video for and which you might want to post it from)

However, be aware that you can make a video using any Instagram account, save the video to your Phone and then post it on any social network / YouTube etc.

Tour of the main menu

11:55 @ @ @ @ •
Projects ↓ 👤

Create your first project

Keep track of your drafts and finished videos all in one place.

- You are then taken to the area where you can create a video. Technically you are in this section of the app (the 4 dots in the middle of the menu)

- Tap on the first icon on the bottom left
- You can create a sticky note – this is simply a way to note ideas for future videos
- Tap on saved – you can view your saved videos
- Tap on collection – you can view the collections (folders) you have created

When you watch videos you have saved you can then create a sticky note or use the music in one of them

11:56 @ @ @ @ •
Ideas 👤

Add stickies

Capture ideas with stickies when inspiration strikes.

Tour of the main menu

- Tap the play button
- They call this are "Inspiration". It is your reels feed and shows you reels it think you would find interesting
- You can write a sticky note if any video gives you some ideas and you can save a video to a collection.
- Tap the circle icon. This is where you can record videos directly within the app

Projects

71% 71%

Create your first project

Keep track of your drafts and finished videos all in one place.

- Tap the 4 squares icon. This is where you got to edit a video
- To edit a video simply tap on the + symbol for New Project
- Find the clips or album on your phone
- Select the clip you want to start the video with
- Tap the tick top right

Demo 1 : How to edit a video (multiple clips plus voiceover)

- Your clip is now on the timeline
- Tap play and pause to choose the part where you want to split the clip
- To get the split option tap on the clip and then tap split to cut the clip where the white line is
- Then tap on the part of the clip you want to delete and then tap delete to delete it

Repeat this split and delete process to remove the parts of the clip you don't want

Demo 1 : How to edit a video (multiple clips plus voiceover)

- Then Tap on + in order to add the next clip.
- Select the clip and then repeat the process of splitting and deleting the part you don't want.
- Keep repeating until you have added and edited all your clips

Demo 1 : How to edit a video (multiple clips plus voiceover)

To add music

Tap on the music symbol

You can then search through their library of music which includes copyright music if you have a creator account.

You can also find your saved music tracks (from Instagram) and also trending music

You can also tap import and then select a video from your phone that has music on it. It will extract the Audio

Tap on the music icon to listen to it

Tap on the name to select it

Demo 1 : How to edit a video (multiple clips plus voiceover)

To add music

You can then choose which part of the music you want to use, just like you would when creating a Reel in the Instagram app

Then tap done

The music is now added to the video

In the editing timeline tap the music line

Then tap on Fade

Then fade out the music

Demo 1 : How to edit a video (multiple clips plus voiceover)

To add music

Then fade out the music by dragging the slider to around 5 seconds

Demo 1 : How to edit a video (multiple clips plus voiceover)

To add text

Tap on the text icon in the menu

You are now in the edit section in this Menu

Type in your text

Then tap on the Aa icon

Demo 1 : How to edit a video (multiple clips plus voiceover)

To add text

When you tap on the Aa icon you can then choose your font. Notice there are categories of fonts

Demo 1 : How to edit a video (multiple clips plus voiceover)

To add text

Tap on the colour wheel to change the colour of the text.

Tap this icon to add an animation to the text

Demo 1 : How to edit a video (multiple clips plus voiceover)

To add text

Tap this icon to choose and effect for your text e.g. Neon

Tap the A icon if you want to add a background colour to the text

Once you are happy with the text tap done

Demo 1 : How to edit a video (multiple clips plus voiceover)

To add text

The text is now added to the timeline.
You can now

1. Pinch this box to make the text bigger or smaller on the screen
2. Tap your finger on this slider and drag it left or right to make the text appear for a longer or shorter time on the video

Demo 1 : How to edit a video (multiple clips plus voiceover)

To add a Voiceover

Tap on the icon for Voice

Then tap on the red record button

Then speak into your phone and tap the button to stop recording

Your voice over will now be on the timeline

Demo 1 : How to edit a video (multiple clips plus voiceover)

To add a Voiceover

Your voice over will now be on the Timeline

When you tap play the music will sound too loud. You now need to reduce the volume of the music

Tap on the voiceover track on the timeline to select it

Then drag the volume slider to the left to reduce the volume until you get to the point where you can clearly hear the voiceover

Demo 1 : How to edit a video (multiple clips plus voiceover)

To export your video

When you want to export your video you can tap on 2K and choose your Resolution

2k and 30 FPS is a good choice

Then tap on Export

Your video will now export and you will find it in a folder called "edits" in your gallery

Create your first project

Keep track of your drafts and finished videos all in one place.

- Tap the 4 squares icon. This is where you got to edit a video
- To edit a video simply tap on the + symbol for New Project
- Find the clips or album on your phone
- Select the clip you want to start the video with
- Tap the tick top right

Demo 2 : How to edit a video (Someone speaking to camera)

- Your clip is now on the timeline
- Tap play and pause to choose the part where you want to split the clip
- To get the split option tap on the clip and then tap split to cut the clip where the white line is
- Then tap on the part of the clip you want to delete and then tap delete to delete it

Repeat this split and delete process to remove the parts of the clip you don't want

Demo 2 : How to edit a video (Someone speaking to camera)

To overlay footage on top of your video

Play and then pause at the point where you would like to overlay footage

Tap on Overlay in the bottom menu

Find the footage / video that you want to overlay. Tap to select

Then tap the tick top right

Demo 2 : How to edit a video (Someone speaking to camera)

To overlay footage on top of your video

The video now appears on top of your main video.

You can pinch it with 2 fingers to expand it to completely cover the main video

On the timeline the video appears Above the main video

Press play and pause where you want the footage to end

Tap on the footage clip on the timeline

Then tap split and delete

Repeat this process for other footage clips you want to add

Demo 2 : How to edit a video (Someone speaking to camera)

To add music

Tap on the music symbol

You can then search through their library of music which includes copyright music if you have a creator account.

You can also find your saved music tracks (from Instagram) and also trending music

You can also tap import and then select a video from your phone that has music on it. It will extract the Audio

Tap on the music icon to listen to it

Tap on the name to select it

Demo 2 : How to edit a video (Someone speaking to camera)

To add music

You can then choose which part of the music you want to use, just like you would when creating a Reel in the Instagram app

Then tap done

The music is now added to the video

In the editing timeline tap the music line

Then tap volume and reduce the volume of the music to ensure you can hear the person speaking

Then tap on Fade/
Then fade out the music

Demo 2 : How to edit a video (Someone speaking to camera)

To add captions

Tap on captions

It will then generate the captions

You now need to proof read them.

Tap on any of the text boxes. You can then edit the text in that box

Demo 2 : How to edit a video (Someone speaking to camera)

To add captions

You will see a menu to manipulate how your captions look

The keyboard symbol – tap to edit your text

This icon – it allows you to choose the style of your captions. Tap on each to preview how it looks

Demo 2 : How to edit a video (Someone speaking to camera)

To add captions

Aa symbol – this allows you to choose a different font

The colour wheel – change the colour of your text

Demo 2 : How to edit a video (Someone speaking to camera)

To add captions

This A symbol – you can apply an outline to your text

When you are happy, tap on done on the top right

Demo 2 : How to edit a video (Someone speaking to camera)

To export your video

When you want to export your video you can tap on 2K and choose your Resolution

2k and 30 FPS is a good choice

Then tap on Export

Your video will now export and you will find it in a folder called “edits” in your gallery

Lights

- A budget alternative (but not as good)
- 12 inch diameter
- Good light if you are close to the light.
- Not as good for lighting up half a room

Cost: Approx €35

The image shows an Amazon product page for a "12" Ring Light with Tripod Stand & Phone Holder Tall 177cm/70", GerTong LED Selfie Circle Ringlight with Remote for Makeup YouTube Tiktok, Floor/Desk USB Halo Lamp with 40 RGB Modes 13 Brightness". The page features a collage of images showing the ring light being used in various settings: a woman taking a selfie, a couple sitting together, a woman recording a video, and a woman using the light for makeup. The text on the page includes the product title, a "WIDE APPLICATIONS" header, a "Photography" label, a "For Camera" label, a "Video Recording" label, and a "VIDEO" icon. The price is listed as EUR33.08, with a 26% discount from the RRP of EUR44.91. The product has 4.4 stars and 5,898 ratings, and is labeled as a "#1 Best Seller" in the "Cell Phone Selfie Lights" category. The page also mentions that 2K+ units were bought in the past month. There is a "Voucher" section with a checkbox for "Apply 10% voucher" and a link to "Shop items". At the bottom, it says "Save up to 10% with business pricing. Sign up for a free".

Lights

- A great small portable light if you are walking around and need the scene lit.

Cost: Approx €40

The image shows a product listing for the Newmowa 60 LED Video Light. On the left, there is a vertical strip of icons showing the light's versatility: it can be used as a desk light, a ring light for a phone, a light for a laptop, a light for a tablet, a light for a camera, a light for a video call, and a light for a video recording. The main image shows the light itself, which is a rectangular panel with a grid of 60 LEDs, mounted on a black stand with a clamp. To the right of the main image, there are three smaller images showing the light being used as a ring light for a phone, a light for a laptop, and a light for a video call. The product title is 'Newmowa 60 LED Video Light, 3200-5600K 3 Lighting Modes and Brightness 10 Levels Dimmable CRI95+ Portable Light for Phone, iPhone, Android, iPad, Laptop'. Below the title, it says 'Visit the Newmowa Store', '4.4 ★★★★★ 2,228 ratings', and '300+ bought in past month'. The price is shown as '-11%' off the RRP of EUR45.18, with the current price being EUR40.29. There is a 'prime' logo and a 'Voucher' section with a checkbox for 'Apply 20% voucher' and a link to 'Terms'. Below the voucher section, it says 'Save up to 2% with business pricing. Sign up for free Amazon Business account'. At the bottom, it lists the 'Brand' as 'Newmowa' and the 'Connectivity' as 'USB'. A text prompt 'Roll over image to zoom in' is located below the main image.
